

Comprehensive Community Study Guide for the Community HESI Exam

Dear Students,

- **Please note that this is not an all-inclusive study guide.**
- Questions are randomly selected much like NCLEX. It is hard to predict what questions will be on the exam this term.
- Attending the live sessions, interacting with your instructor, and doing the work in class has prepared you for the HESI.

Helpful Hints for Success:

- Review your exam study guides for this term.
- Review ADPIE, Priority type concepts, safety, and management.
- Review primary, secondary, tertiary prevention for ANY illness.
- Remember physiological trumps psychological. ABC's are ALWAYS number 1!!!!
- ALWAYS assess for abuse and neglect in every age group and REMEMBER you are mandated reporters.
- Your NCLEX questions and Evolve Case studies have prepared you.
- Your discussion posts have prepped you. Make sure your read your instructor feedback on your work for key information.
- Kaplan questions and the Kaplan A for Community is FABULOUS practice. Make sure you are taking notes during the remediation of each question. THE RATIONALES are SUPER helpful!!!!
- If you reviewed your exams with your instructor when the review period was open, you should have an idea of what to expect.
- Remember to apply principles of clinical judgement, nursing process, Med/Surg principles, safety, and delegation.)
- KEEP the study guides and review them: LOTS of community assessment, evaluation, morbidity and community validation concepts will be threaded in the HESI.

Good Luck!!
