The Routledge Handbook of Community Based Tourism

Management Sandeep Kumar Walia, 2020-12-21 This Handbook offers an up to date and comprehensive overview of core themes and concepts in community based tourism management. Providing interdisciplinary insights from leading international scholars, this is the first book to critically examine the current status of community based tourism. Organised into five parts, the Handbook provides cutting edge perspectives on issues such as Indigenous communities, tourism and the environment, sustainability and the impact of digital communities. Part 1 introduces core concepts and methodologies and distinguishes community products from other tourism and hospitality goods. Part 2 explores communities' attitudes towards tourism development and their engagement with and ownership of the process. It also delves into the role of community based tourism under the influence of governmental policies in the economic and social development of a region. In Part 3, various management, marketing and branding initiatives are identified as a means of expanding the tourism business. Part 4 examines the negative impacts of mass tourism and its threats to culture, tradition, identity, the built environment and natural heritage. In the final and fifth part, future challenges and opportunities for community based tourism initiatives are considered and research based sustainable solutions are proposed. Overall, the book considers engaging local populations in tourism development as a way of building stronger and more resilient communities. This Handbook fills a void in the current research and thus will appeal to scholars, students and practitioners interested in tourism management, tourism geography, business studies, development policy and practice, regional development, conservation and sustainability.

Community-Based Tourism in the Developing World Peter Wiltshier, Alan Clarke, 2019-10-16 This book analyses community based approaches to developing and regenerating tourism destinations in the developing world, addressing this central issue in sustainable tourism practices. It reviews a variety of systems useful for analysing and understanding management issues to offer new insight into the skills and resources that are needed for implementation, ongoing monitoring and review of community based tourism. Adopting a multidisciplinary approach, this book explores alternatives to the dominant interpretation which argues against tourism as a benefit for community development. International case studies throughout the book illustrate and vouch for tourism as a transformative force while clarifying the need to manage expectations in sustainable tourism for community development, rejuvenation and regeneration. Emphasis is placed on accruing relevant decision support material and creating

services products and management approaches that will endure and adapt as change necessitates This will be of great interest to upper level students researchers and academics in the fields of tourism impacts sustainability ethics and development as well as the broader field of geography
