Cummings,2016-07-18 About 200 000 years ago humans arose as a species on the continent of Africa How did they get to the rest of the world When did they leave why and what did they use for transportation Whether by bamboo raft or Boeing 747 whether to escape political persecution or because of climate change migration is a recurring pattern throughout the human history of the world In Human Migration Investigate the Global Journey of Humankind readers ages 12 to 15 retrace the paths taken by our ancestors starting with the very first steps away from African soil Understanding who has migrated from where when and why helps us understand the shared history of humans across the world and the future that links us together Kids discover how archaeologists paleoanthropologists linguists and geneticists piece together different parts of the puzzle of ancient migration Open ended inquiry based activities and links to primary sources help readers draw inferences and analyze how these human journeys have changed where and how people live Human Migration takes readers on a journey from our common ancestry to our shared future on an increasingly fragile planet *The Civil War* Judy Dodge

Cummings,2017-11-01 Slavery or freedom The question of whether to make the United States a slave country or to make all people free was the question that pitted the states against each other in a brutal battle In *The Civil War The Struggle that Divided America* readers ages 12 15 explore this conflict through the eyes and ears of the men and women who were touched by the clash that left more than 700 000 soldiers dead Following the American Revolution slavery was enshrined in the U S Constitution However the United States still wrestled with whether it would be a country of slavery or grant freedom for all The southern states relied on slavery s economic role while the northern states though also beneficiaries of the benefits of slavery were closer to deciding that the institution should be outlawed The rapid territorial expansion of the United States in the first half of the nineteenth century created a series of crises that upset the delicate balance of power between free and slave states ultimately sparking the Civil War President Lincoln issued the Emancipation Proclamation in 1862 sounding the death knell of slavery This act permitted African Americans to join the fight and enslaved people fled to Northern lines The Confederacy lost slave labor one of its greatest war weapons The Union implemented a strategy of total war which achieved victory but only after shocking carnage The Confederate army surrendered on April 9 1865 but celebrations in the north were short lived A week later President Lincoln was assassinated The legacies of the Civil War are far reaching and include the abolition of slavery and the endurance of a unified nation In *The Civil War The Struggle that Divided America* readers follow in the footsteps of two young men Elisha Hunt Rhodes and Sam Watkins From opposite sides these men fought for similar reasons adventure country and freedom Readers become myth busters as they examine primary source documents to prove slavery s role in causing the war and experience the life of a soldier as they evaluate patriotic music design models of battlefield fortifications and explore camp life Other activities include calculating the mathematics of death and examining the role women played in providing medical care and on the home front The Civil War was the central crisis in American history The issues at the heart of the conflict race freedom and citizenship still resonate today **The Holocaust** Carla

Mooney,2017-04-11 What would your life be like if you were a Jewish person living in Nazi Germany in 1940 You might be forced to leave your home with only what you and your family could carry You might even be killed by members of the Nazi party The Holocaust is a grim period in human history More than 11 million people including 6 million Jewish people died at the hands of the Nazis In The Holocaust Racism and Genocide in World War II readers ages 12 to 15 learn about the long history of anti-Semitism the rise of Adolf Hitler and the Nazi party the increasing persecution of Jewish people and other populations and the events of The Final Solution the attempt to exterminate an entire race of people through industrialized death camps Projects such as writing letters in the voices of teenagers of different races who lived in the 1930s help infuse the content with realism and the eternal capacity for hope In depth investigations of primary sources from the period allow readers to engage in further independent study of the times Additional materials include links to online primary sources a glossary a list of current reference works and Internet resources
