Clinical Skills in Children's Nursing Imelda Coyne, Fiona Timmins, Freda Neill, 2010-04-29 Designed as a compelling text for students Clinical Skills in Children's Nursing offers evidence based and family centred practical guidance for procedures in all care settings Emphasis is placed on the development of decision making skills and sensitive care It is enhanced by illustrations online resources and regular updates to evidence

The Great Ormond Street Hospital Manual of Children's Nursing Practices Susan Macqueen, Elizabeth Bruce, Faith Gibson, 2012-06-18 Clinical skills are a fundamental aspect of nursing care of children and young people The

Great Ormond Street Hospital Manual of Children's Nursing Practices is an evidence based manual of practical skills in children's nursing which builds on the extensive expertise developed at Great Ormond Street Hospital. It encompasses all aspects of children's nursing from the most basic aspects of everyday practice to advanced practice in high dependency and intensive care to provide a comprehensive resource for all qualified nurses, students and other health care professionals involved in caring for children both in the hospital and the community setting. Children's and young people's nursing presents unique challenges. The Great Ormond Street Hospital Manual utilises the latest clinical research and expert clinical knowledge to address these challenges and provides the underlying theory and evidence for nursing care of children. It provides a definitive guide to clinical skills, procedures in children's and young people's nursing which enables nurses working with children and young people to practice confidently and deliver clinically effective, family centred care. Key features: Offers access to clinical procedures developed through the extensive expertise from Great Ormond Street Hospital. Contains evidence based recommendations for expert care. Encompasses all aspects of children's care. Contains procedures, guidelines, students can rely on and effectively use in practice following qualification. Highlights specific needs of neonates and adolescents. Placed in the context of inter disciplinary care of the child. Includes the rationale for each procedure, the why as well as how. Information presented in a similar way to The Royal Marsden Manual of Clinical Nursing Procedures, offering continuity to those working in both adult and paediatric settings. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes or the MedHand Store.

Clinical Skills in Child Health Practice Janet Kelsey, Gillian McEwing, 2008-04-25. This package provides you with the book plus the eBook giving you the printed book plus access to the complete book content electronically. Evolve eBooks allows you to quickly search the entire book, make notes, add highlights and study more efficiently. Buying other Evolve eBooks titles makes your learning experience even better; all of the eBooks will work together on your electronic bookshelf so that you can search across your entire library of nursing eBooks. This textbook of clinical skills is an excellent resource for all professionals providing care for children and young people. It presents a detailed step by step approach to clinical skills that may be used in both hospital and community settings. Each skill is presented with the evidence base required to ensure up to date safe practice.

Placement Learning in Medical Nursing, A guide for students in practice, 1 Maggie Maxfield, 2012. Placement Learning in Medical Nursing covers the following areas: Takes a logical step by step approach to preparing for learning on a medical nursing placement. Provides the principles of care, treatment and management of an individual, linking university learned theory to clinical practice. Gives helpful evidence based practice examples and resources to support placement learning. Identifies clinical skills that underpin care of an individual. Highlights potential learning opportunities and experiences available on a medical nursing placement. Explains how to develop your clinical portfolio by completing specific exercises and activities. Maps all activities and exercises to the NMC competencies. Advises on approaches to a range of situations that may arise as a student.

nurse Adopts a case study patient pathway approach to consolidating learning from pre diagnosis through a range of treatment options to discharge Publisher **Practices in Children's Nursing E-Book** Ethel Trigg,Toby Mohammed,Louise Ford,Hermione Montgomery,Vicky Vidler,2010-06-17 The skills required by children s nurses are many and varied and are undertaken in a variety of settings Sick children are cared for at home in children s units and hospitals and sometimes in adult wards In addition children with disabilities may need nursing care while at special schools or in residential settings This book provides a clinical manual of common practices Each practice is research based and presented in a common format which covers Objectives Rationale Factors to note Guidelines Positioning Equipment Method Special observations and possible complications References and further reading The guidelines have been written specifically for children s nursing by contributors from well known children s units They are not simply adaptations from adult practices and therefore recognise the unique differences between adult and children s nursing The introductory section covers common concepts and infection control There is also a chapter on complementary therapies and an appendix on the use of play as a distraction All hospital and community nurses dealing with children whether at home in specialised units or in community settings will find the book of great practical help The common format of each practice makes the book easy to use and refer to in a clinical setting Each practice is based on the latest research to ensure it is evidence based and up to date Introductory chapters cover issues common to all practices to make the book easier to use The appendix on play reinforces its common usage as a distraction technique A chapter on complementary therapies explains these as they are becoming more widespread All practices have been reviewed by regional centres to avoid parochialism Content reorganised to reflect the Essential Skills Clusters from the NMC New chapter on communicating with children All chapters updated to reflect the current evidence base
