Comparative Map History and “the History of Cartography” Matthew H. Edney,2025-07-10 The apparently centuries old field of the history of cartography was invented after 1950 through incomplete historiographies by leading map historians This monograph uses an empirically grounded analysis of the ways in which early maps have been systematically studied since the early 1800s to offer an innovative account of the practices and institutions of comparative map history in support of Western imperialism and nationalism and of how the field was reconfigured as the core of a newly idealized discipline of the history of cartography **Horse Breeds and Human Society** Kristen Guest, Monica Mattfeld,2019-11-26 This book demonstrates how horse breeding is entwined with human societies and identities It explores issues of lineage purity and status by exploring interconnections between animals and humans The quest for purity in equine breed reflects and evolves alongside human subjectivity shaped by categories of race gender class region and nation Focusing on various horse breeds from the Chincoteague Pony to Brazilian Crioulo and the Arabian horse each chapter in this collection considers how human and animal identities are shaped by practices of breeding and categorizing domesticated animals Bringing together different historical geographical and disciplinary perspectives this book will appeal to academics as well as undergraduate and postgraduate students in the fields of human animal studies sociology environmental studies cultural studies history and literature **Foreign Government Publications** James Bennett Childs,1928
