**Besieged** William G. Howell, 2005-04-01 School boards are fighting for their survival Almost everything that they do is subject to regulations handed down from city councils state boards of education legislatures and courts As recent mayoral and state takeovers in such cities as Baltimore Chicago and New York make abundantly clear school boards that do not fulfill the expectations of other political players may be stripped of what few independent powers they still retain Teachers unions exert growing influence over board decision making processes And with the passage of the No Child Left Behind Act the federal

Washington is asking What's the right thing to do What's wrong in Washington is deeper than you think Yes there's gridlock polarization and self dealing But hidden underneath is something bigger and more destructive It's a broken governing system From that comes wasteful government rising debt failing schools expensive health care and economic hardship Rules have replaced leadership in America Bureaucracy regulation and outmoded law tie our hands and confine policy choices Nobody asks What's the right thing to do here Instead they wonder What does the rule book say There's a fatal flaw in America's governing system trying to decree correctness through rigid laws will never work Public paralysis is the inevitable result of the steady accretion of detailed rules America is now run by dead people by political leaders from the past who enacted mandatory programs that churn ahead regardless of waste irrelevance or new priorities America needs to radically simplify its operating system and give people officials and citizens alike the freedom to be practical Rules can't accomplish our goals Only humans can get things done In *The Rule of Nobody* Philip K Howard argues for a return to the framers vision of public law setting goals and boundaries not dictating daily choices This incendiary book explains how America went wrong and offers a guide for how to liberate human ingenuity to meet the challenges of this century **Try Common Sense** Philip K. Howard, 2019-01-29 Award winning author Philip K Howard lays out the blueprint for a new American society In this brief and powerful book Philip K Howard attacks the failed ideologies of both parties and proposes a radical simplification of government to re empower Americans in their daily choices Nothing will make sense until people are free to roll up their sleeves and make things work The first steps are to abandon the philosophy of correctness and our devotion to mindless compliance Americans are a practical people They want government to be practical Washington can't do anything practically Worse its bureaucracy prevents Americans from doing what's sensible Conservative bluster won't fix this problem Liberal hand wringing won't work either Frustrated voters reach for extremist leaders but they too get bogged down in the bureaucracy that has accumulated over the past century Howard shows how America can push the reset button and create simpler frameworks focused on public goals where officials prepare for the shock are actually accountable for getting the job done
