Democratizing The European Union Democratizing The European Union:

Democratizing the European Union Catherine Hoskyns, 2000 This series provides texts central to medieval studies courses and focuses upon the diverse cultural social and political conditions that affected the functioning of all levels of medieval society Translations are accompanied by introductory and explanatory material and each volume includes a comprehensive guide to the sources interpretation including discussion of critical linguistic problems and an assessment of recent research on the topics covered From 1348 to 1350 Europe was devastated by an epidemic that left between a third and one half of the population dead This source book traces through contemporary writings the calamitous impact of the Black Death in Europe with a particular emphasis on its spread across England from 1348 to 1349 Rosemary Horrox surveys contemporary attempts to explain the plague which was universally regarded as an expression of divine vengeance for the sins of humankind Moralists all had their particular targets for criticism However this emphasis on divine chastisement did not preclude attempts to explain the plague in medical or scientific terms Also there was a widespread belief that human agencies had been involved and such scapegoats as foreigners the poor and Jews were all accused of poisoning wells The final section of the book charts the social and psychological impact of the plague and its effect on the late medieval economy

How to Democratize the European Union...and Why Bother? Philippe C. Schmitter, 2000-04-12 A contradictory creation indeed the European Union has most of the institutions of a modern democracy yet it does not function as one Moreover its growing scope of activity and supranational decision making processes are undermining the legitimacy of democracy in its member states Much has been written about this double democratic deficit but surprisingly little thought has been given to what to do about it _short of drafting and ratifying a new federal constitution In this provocative book Philippe C Schmitter explores both the possibility and the desirability of democratizing the EU He argues that as a non state and a non nation it will have to invent new forms of citizenship representation and decisionmaking if it is ever to democratize itself The author also contends that the timing and political context work against a full scale constitutionalization of the process He proposes a number of modest and some less modest reforms that could improve the situation in the near future and eventually lead to a genuine Euro democracy

Democratizing the European Union Catherine Hoskyns, Michael Newman, Abstract **Democratizing Central and Eastern Europe** Luca Tomini, 2015-05-22 At first it was believed that accession to the EU would have a positive effect on the process of democratization in former communist countries However over time it became clear that difficulties with the democratic system endured in a number of these countries This book reconsiders the results of the process of democratization in Central and Eastern Europe and evaluates the nature and effectiveness of the Europeanization process It comparatively explores the process of democratic consolidation and accession to the European Union in Poland Slovakia and Bulgaria Using these case studies the book assesses the impact of the EU on the accountability and integrity of governments in this part of Europe This text will be of key interest to scholars and

students of democratization studies European studies EU studies transition studies area studies and international relations
