Confucius Lives Next Door:

Confucius Lives Next Door T.R. Reid, 2013-04-24 Those who've heard T.R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in National Geographic or The Washington Post know him to be trenchant funny and cutting edge but also erudite and deeply grounded in whatever subject he's discussing In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan China Taiwan and other East Asian countries enjoy the low crime rates stable families excellent education and civil harmony that remain so elusive in the West Reid who has spent twenty-five years studying Asia and was for five years The Washington Post's Tokyo bureau chief uses his family's experience overseas including mishaps and misapprehensions to look at Asia's social miracle and its origin in the ethical values outlined by the Chinese sage Confucius 2,500 years ago When Reid his wife and their three children moved from America to Japan the family quickly became accustomed to the surface differences between the two countries In Japan streets don't have names pizza comes with seaweed sprinkled on top and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside But over time Reid came to appreciate the deep cultural differences helped largely by his courtly white-haired neighbor Mr Matsuda who personified ancient Confucian values that are still dominant in Japan Respect responsibility hard work these and other principles are evident in Reid's witty perfectly captured portraits from that of the school his young daughters attend in which the students maintain order and scrub the floors to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity And Reid also examines the drawbacks of living in such a society such as the ostracism of those who don't fit in and the acceptance of routine political bribery Much Western ink has been spilled trying to figure out the East but few journalists approach the subject with T.R. Reid's familiarity and insight Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully politically and economically with those whose moral center is governed by Confucian doctrine Fascinating and immensely readable *Confucius Lives Next Door* prods us to think about what lessons we might profitably take from the Asian Way and what parts of it we want to avoid *Princeton Alumni Weekly* Jesse Lynch Williams, Edwin Mark Norris, 1996 *Anime Explosion!* Patrick Drazen, 2014-04-01 One of the best overviews of the anime phenomenon its history and cultural significance ideal for surveys and in-depth study **A Gathering of Spirits: Japan's Ghost Story Tradition** Patrick Drazen, 2011-07-01 Prepare for a sampling of Japanese ghosts and spirits from sources that include the world's oldest novel the urban legends of contemporary Japanese schoolchildren movies both classic and modern anime manga and more For hundreds of years Japan has lived in a reality consisting of the real world and the spirit world sometimes the wall between the two worlds gets thin enough for spirits to cross over In such a reality ghost stories have been popular for centuries Patrick Drazen author of *Anime Explosion* looks at these stories old and new scary or funny or sad looking at common themes

and the reasons for their popularity This book uses one Japanese ghost story tradition the hyaku monogatari hundred stories In the old tradition people tell each other one hundred ghost stories in one sitting These hundred tales run from folklore to cartoons but all are designed to send chills up the spine **Talking the Walk** Marva J. Dawn, 2018-01-04 Experience in the classroom at Nebraska Wesleyan and Wesleyan Universities has shown that there is need for an edition of the documents constituting the main sources of the Hexateuch It is impossible to teach the Old Testament historically without frequent reference to J E and P Students become interested in the problem and wish to read sources only to discover that the desired documents are not available The Sources of the Hexateuch is an attempt to supply this need by editing the documents J E and P according to the consensus of English Scotch Dutch German French Swiss and American *Come Hell or High Fever* Russell W Glenn, 2023-01-24 Nations appear and fall but cities endure and rediscover how to succeed In this meticulously defined and researched book Glenn presents ideas for minimising suffering during urban catastrophes His urgency identifies risks held in urban areas by 3.5 billion people These people are many of us as urban populations occupying 3 per cent of our planet's land area drawing water from 41 per cent of the world's ground surface consuming 60 to 80 per cent of global energy and achieving 80 per cent of the world's economic productivity For Glenn our resilience through diversity in preparation survival and recovery includes comprehensive approaches that are sustained in duration orchestrated in bringing all necessary capabilities to bear layered in approach and early in application Major General Chris Field Australian Army The time to prepare for the inevitable is now Dr Glenn has written a book that should be read by all leaders planners and responders who may be called upon in an urban disaster whether natural or man made Military leaders should give it particular attention as the human race is increasingly concentrated in its cities Understanding how to wage war in dense urban terrain is essential especially if a nation also seeks to hold the moral high ground The fruits of any victory won among people that fails to consider the lessons in *Come Hell or High Fever* are likely to be very bitter Lieutenant General Sean MacFarland United States Army retired The Perfect Response Gary C. Woodward, 2010-09-20 The Perfect Response is a lucid account of the social origins of fluency from a scholar recognized as a leading analyst of the dramaturgical dimensions of politics In this imaginative study Gary C Woodward creates and elucidates the idea of The Rhetorical Personality using a deft blend of communication theory social history and rhetorical criticism With unusual capacities for expressiveness persuasiveness and sensitivity Rhetorical Personalities thrive in settings that call for communication that will transcend differences and engage others They typically have a heightened sense of their own persuasive power a skill for reading audiences and the capacity to function effectively in unfamiliar settings Each chapter of The Perfect Response probes the nature of these uniquely social persons from a different perspective through the sympathetic characters of a prolific Hollywood filmmaker by examining the nature of the social isolation in individuals with autism spectrum disorders through cross cultural comparisons and by assessing seminal and recent social science research on key benchmarks of rhetorical skill

such as high self monitoring other direction and the capacity for engagement with others Focusing on public figures that range from comedian Steve Martin to political leaders as diverse as Bill Clinton and Tony Blair Woodward builds a detailed conceptual map for profiling the kinds of individuals who naturally maximize the possibilities of communication in public settings

Cultures of Development Jonathan Warren, 2016-11-25 The North Atlantic development establishment has had a blemished track record over the past 65 years In addition to a sizeable portfolio of failure the few economic success stories in the developing world such as South Korea and China have been achieved by rejecting the advice of Western experts Despite these realities debates within mainstream development studies have stagnated around a narrow acultural emphasis on institutions or the size and role of government Cultures of Development uses a contrapuntal comparison of Vietnam and Brazil to show why it is important for development scholars and practitioners to broaden their conceptualization of economies to include the socio cultural This smartly written book based on original ethnographic research breathes new life into development studies by bringing cultural studies into conversation with development studies with an emphasis on improving rather than merely critiquing market economies The applied deployment of critical development studies i e interpretive economics results in a number of theoretical advances in both development and areas studies demonstrating the economic importance of certain kinds of cultural work carried out by religious leaders artists activists and educators Most importantly the reader comes to fully appreciate how economies are embedded within the subjectivities discourses symbols rituals norms and values of a given society This pioneering book revives development practice and policy by offering fresh insights and ideas about how development can be advanced It will be of special interest to scholars and students of Development Studies Sociology Economics Anthropology and Area Studies
