Environmental & Social Justice Challenges Near America's Most Popular Museums, Parks, Zoos & Other Heritage Attractions Michael Greenberg, 2022-08-09 This book examines environmental and social justice challenges near America's most popular heritage attractions. These include over 100 places that host national parks e.g. Glacier Yellowstone zoos e.g. Bronx Henry Doorly urban parks e.g. Central Park Fairmount grand concourses e.g. 5th Avenue Massachusetts Avenue and multiple museums and galleries e.g. National Gallery Getty. The book includes measurements of demographics air quality distance from hazards health outcomes and urban assets in the areas immediately surrounding these heritage sites and compares them with adjacent areas and their host cities or states. It considers the history of justice related issues near the sites and evaluates what owners managers and communities are doing to address gentrification displacement the legacy of redlining and other challenges such as the animal rights movement climate change sustainability and tight budgets. The book examines what some host cities are doing about affordable housing and what some heritage sites have done in establishing constructive relationships with surrounding communities. The book should have two primary audiences. One is the strong and growing social and environmental justice community that has increasingly been scrutinizing parks and other icons for evidence of injustice. This book will interest them even though all the results do not necessarily support their positions. The second audience is businesses not for profits and government agencies who manage parks zoos museums and other attractions and need to understand what is happening near their sites and what they can do to be better neighbours

Disney Parks and the Construction of American Identity Jennifer A. Kokai, Tom Robson, 2024-08-26 Writing in a time of heightened political anxiety and when accusations of nationalism authoritarianism and proto fascism have increasingly divided Americans into factions the authors use their influential performance studies based tourist as actor framework to unpack the ways that Disney parks and their guests co create performance of implicit Americanness in the 21st century. This book argues that the roles that guests choose to perform accepting declining negotiating or overwriting scripts offered to them by the Disney theme park experience ultimately reveals much about the nature of the contemporary United States. Focusing primarily on Walt Disney World in Florida and using case studies on music geography and ecology sports

families and politics these chapters illuminate the always complicated and often contradictory presentations and performances of America within Disney parks in the deeply contested twenty first century
