Clausewitz's Concept of the Culminating Point and Its Application in the Gettysburg Campaign U. S. Army U.S. Army War College, 2015-04-24 With the publication of the 1982 edition of Field Manual 100 5 Operations the U S Army presented a fighting doctrine rooted in classical military theory Yet doctrine to be useful must be accepted and understood in its own right by those who have to apply it Clausewitz s idea of the culminating point is a good example FM 100 5 cites the concept of the culminating point as central to understanding Air Land Battle and operational art and consequently explains it to its readers The Clausewitzian concept of the culminating point is even more important to officers who plan and conduct theater operations This book offers a critical analysis of the theory of the culminating point in the well known Gettysburg Campaign conducted by General Robert E Lee in 1863 This Civil War battle has been the subject of more study and extensive written works than any other battle of the war and the student of military history would think that it would be rich in examples of the application of military theory in this case the concept of the culminating point Was the Clausewitzian theory of the culminating point evident in the campaign Did Lee consider the concept and apply it to his decisions regarding the Campaign Did the campaign support the concept and add validity to it In looking for these answers the reader can better understand the application of the concept of the culminating point and thereby become a better practitioner of turning scientific theory into artful tactics and operations Lee s 1863 campaign into Pennsylvania is an excellent case study from which to investigate many of Clausewitz s theories about war The concept of the culminating point is particularly well served by what happened in the campaign FM 100 5 has reintroduced the culminating point to the U S Army and has contributed to the educational process to help soldiers detect the culminating point with the discriminative judgment Clausewitz said was necessary Studying campaigns like Gettysburg can be very useful for a better appreciation of theoretical and doctrinal concepts A better understanding of theory and its relationship to doctrine is important understanding the key concept of the culminating point is one example

Vego,2009 Smallholder farmers and pastoralists fulfil an invaluable yet undervalued role in conserving biodiversity They act as guardians of locally adapted livestock breeds that can make use of even marginal environments under tough climatic conditions and therefore are a crucial resource for food security But in addition by sustaining animals on natural vegetation and as part of local ecosystems these communities also make a significant contribution to the conservation of wild biodiversity and of cultural landscapes This publication provides a glimpse into the often intricate knowledge systems that pastoralists and smallholder farmers have developed for the management of their breeds in specific production systems and it also describes the multitude of threats and challenges these often marginalized communities have to cope with **China** World Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of spectacular growth But the authors of this paper maintain

that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts *A Mythic Land Apart* John David Smith, Thomas H. Appleton, 1997-05-12 Content Description Includes bibliographical references p and index *Government Reports Annual Index* ,1993 **The Grand Design** Donald Stoker, 2010-07-20 Despite the abundance of books on the Civil War not one has focused exclusively on what was in fact the determining factor in the outcome of the conflict differences in Union and Southern strategy In *The Grand Design* Donald Stoker provides for the first time a comprehensive and often surprising account of strategy as it evolved between Fort Sumter and Appomattox Reminding us that strategy is different from tactics battlefield deployments and operations campaigns conducted in pursuit of a strategy Stoker examines how Abraham Lincoln and Jefferson Davis identified their political goals and worked with their generals to craft the military means to achieve them or how they often failed to do so Stoker shows that Davis despite a West Point education and experience as Secretary of War ultimately failed as a strategist by losing control of the political side of the war Lincoln in contrast evolved a clear strategic vision but he failed for years to make his generals implement it And while Robert E Lee was unerring in his ability to determine the Union s strategic heart its center of gravity he proved mistaken in his assessment of how to destroy it Historians have often argued that the North s advantages in population and industry ensured certain victory In *The Grand Design* Stoker reasserts the centrality of the overarching plan on each side arguing convincingly that it was strategy that determined the result of America s great national conflict *Military Review* ,2006
