Climate Change And Threatened Communities Vulnerability Capacity And Action:

Climate Change and Threatened Communities Dan Taylor, Alfonso Peter Castro, David W. Brokensha, 2012 Global climate change disproportionately affects rural people and indigenous groups but their rights knowledge and interests concerning it are generally unacknowledged Shifts in precipitation cloud cover temperature and other climatic patterns alter their livelihood pursuits and cultural landscapes accentuating their existing social and economic marginalization This book argues that planners and researchers of climate change mitigation and adaptation must take into account the knowledge and capacity of rural people and engage them as active participants in the design and governance of interventions not as a matter of courtesy but because it is their right Furthermore inclusion of local communities in genuine partnership will likely make climate change adaptation and mitigation efforts more effective *Climate Change and Threatened Communities* presents 15 case studies and a variety of approaches to document the capacities and constraints to be encountered among communities facing changing climates in Bangladesh Cameroon Canada Ecuador Ethiopia India Indonesia Italy Malawi Mexico Mozambique Peru South Africa Sudan United States Vietnam and Zimbabwe It explores human interactions in environments ranging from subarctic tundra to equatorial rain forest from oceanic lagoons to inland mountains Chapters investigate issues such as social vulnerability to climatic uncertainty shifts in livelihood practices local perceptions of climatic change and the potential and limitations of the United Nations Programme on Reducing Emissions from Deforestation and Forest Degradation in Developing Countries Authors consider the potential of archaeology phenomenology controlled comparisons historical analysis gender analysis and other analytical approaches to shed light on the experiences of communities and their members This book is important reading for policy makers academics and students in the fields of climate change adaptation anthropology and development studies as well as more general readers
