Simplicitus: The Interconnected Primary Curriculum & Effective Subject Leadership Emma Turner, 2022-04-15 Primary curriculum design has been in sharp focus in recent years. After leading on curriculum design and effective subject leadership for 24 years across multiple schools, Emma has written the handbook for both the complex thinking which underpins primary curriculum design and provided the practical models to make it work. There is much advice out there for primary schools but much is often dominated by voices not trained or experienced in primary practice. Emma outlines the unique considerations needed for designing and implementing a rich, high quality curriculum which serves our youngest learners: a blend of academic thinking, educational research, the wisdom of decades of primary experience and a true love of the unique nature of primary. Primary curriculum design is a unique knowledge domain of its own and Emma explains and explores how this knowledge and the thinking around it needs to be championed and implemented through both academic and child development lenses. Rooted in experience, underpinned by successful approaches implemented in hundreds of schools, curriculum design in primary is complex and nuanced but it can also be *Simplicitus*. **Maths Plus** Peter Clarke, 2004-08 Stimulate children to work collaboratively with Maths Plus Groups Work and have fun too. Groups Work Year 6 Teacher Book provides 15 problem solving group activities. *GCSE Mathematics for OCR Foundation Student Book* Karen Morrison, Julia Smith, Pauline McLean, Nick Asker, Rachael Horsman, 2015-04-09 A new series of bespoke full coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification. With a strong focus on developing problem solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online, an enhanced digital resource incorporating progression tracking, is also available, as well as Problem Solving Books, Homework Books and a free Teacher's Resource. **New National Framework Mathematics 7 Core Workbook** Maryanne Tipler, 2004-08-27 This one colour disposable Workbook is aimed at middle ability pupils in Year 7 and provides an ideal homework book so that core pupil books don't need to be taken home. Ideal for use with New National Framework Mathematics or alongside any other course throughout the year. *The Math Handbook* Richard Elwes, 2013-11-05 This is the perfect introduction for those who have a lingering fear of math. If you think that math is difficult, confusing, dull or just plain scary, then *The Math Handbook* is your ideal companion. Covering all the basics including fractions, equations, primes, squares and square roots, geometry and fractals, Dr Richard Elwes will lead you gently towards a greater understanding of this fascinating subject. Even apparently daunting concepts are explained simply, with the assistance of useful diagrams and with a refreshing lack of jargon. So whether you're an adult or a student, whether you like Sudoku but hate doing sums or whether you've always been daunted

by numbers at work school or in everyday life you won't find a better way of overcoming your nervousness about numbers and learning to enjoy making the most of mathematics

Measures, Shape and Space David Clemson, Wendy Clemson, 2002 Maths Action Plans is a series of four books for Years 4-6 P5-7 offering flexible supportive teacher and pupil resources and coherent coverage of the five strands of the Framework for Teaching Mathematics. The series provides inspiring flexible activities that can be fitted into any maths scheme. Each title contains clear learning objectives linked to the Framework for Teaching Maths, the National Curriculum Programme of Study and the 5-14 National Guidelines for Mathematics, lesson plans with up to three levels of differentiation, supplementary activities for consolidation or linked work and suggestions for the application of ICT skills.
