**Trinity and Organism** James Eglinton, 2012-03-29 This book explores the organic motif found throughout the writings of the Dutch Calvinist theologian Herman Bavinck 1854 1921 Noting that Bavinck uses this motif at key points in the most important loci of theology Christology general and special revelation ecclesiology and so forth it seems that one cannot read him carefully without particular attention to his motif of choice the organic By examining the sense in which Bavinck views all of reality as a beautiful balance of unity in diversity James Eglinton draws the reader to Bavinck's constant concern for the doctrine of God as Trinity If God is the Father the Son and the Holy Spirit Bavinck argues the creation must be more akin to an organism than a machine Trinity and organism are thus closely linked concepts Eglinton critiques and rejects the two Bavinck's one orthodox and the other modern hermeneutic so commonplace in discussions of Bavinck's theology Instead this book argues for a reunited Herman Bavinck as a figure committed to the participation of historic orthodox theology in the modern world

**Donald G. Bloesch** Paul Maher, 2007 Donald G Bloesch is among the most important American theologians of the 20th and early 21st centuries He calls himself a catholic evangelical and indeed his appeal is as wide as those terms imply His work has appeared in Catholic religious periodicals as well as many varieties of Protestant publications both mainstream and lesser known As a prolific author Bloesch's writing is scattered across a large number of journals many of which are difficult to access and reviews of his work appear in an even larger range of forums Donald G Bloesch A Research Bibliography collocates as many relevant resources on Bloesch's writing as possible The book provides a chronological listing and description of each work written by Bloesch as well as reviews of Bloesch's writing Each entry gives the title publication details and notes about the relationship of the item described to other publications Several indexes are also included giving a checklist of books by Bloesch a checklist of books to which Bloesch has contributed and a list of book reviews that Bloesch has written about other authors Finally there is an alphabetical index of titles names and periodicals cited in the bibliography making this the most comprehensive resource available on Bloesch

What Is Truth? James Emery White, 2006-09-01 SEARCHING FOR ABSOLUTES IN A POSTMODERN WORLD In this postmodern age truth especially religious or moral truth is widely criticized and constantly challenged yet perhaps more important than ever It was this realization that led James Emery White to examine the concepts of truth as held by five twentieth century theologians Cornelius Van Til Millard J Erickson Francis A Schaeffer Donald G Bloesch Carl F H Henry

Celebrating the Legacy of the Reformation Benjamin K. Forrest, 2019-07-01 In this compilation of essays experts in the field provide an in depth look at the long lasting impact of the Protestant Reformation Readers will gain new insights into the legacies of theology spiritual formation and personal worship catechism and preaching and the missions and martyrs of the Reformation Celebrating the Legacy of the Reformation will inspire and challenge readers to learn from the past for the sake of the future

*Mission and the Coming of God* Tim Chester, 2006-10-01 How does the eschatological future impinge on the present Is the kingdom of God

present outside the confession of Christ in movements towards social justice Is Christian hope a stimulus to social involvement or an alternative And how does the present impinge on the eschatological future What is the relationship between our actions now and the new creation Is there eschatological continuity between the two Jürgen Moltmann one of our most influential contemporary theologians has had much to say both on eschatology and its relationship to mission This book explores his thought along with evangelical responses to it Eschatology has been central to evangelical debates about social involvement ever since the Lausanne Congress in 1974 The book examines how evangelicals themselves have related hope and mission The book highlights the important contribution Moltmann has made while offering a critique of his thought from an evangelical perspective In so doing it touches on pertinent issues for evangelical missiology The conclusion takes John Calvin as a starting point proposing an eschatology of the cross which offers a critique of the over realized eschatologies in liberation theology and triumphalistic forms of evangelicalism This is a work of major importance engaging with crucial themes and leading Christian thinkers A must read for all reactive evangelicals Tim Chester's work is always good but this is the best yet in Martyn Atkins Principal Cliff College Calver UK Despite the attention of Moltmann and despite intra evangelical debate on the nature of mission over the last three decades the task of bringing Moltmann and evangelicalism into dialogue has remained on the table for some time Tim Chester takes up the agenda His combination of practical experience in mission and theological ability equip him well for this task and the result is a study which brings academic reasoning to bear on Christian thought about eschatology and its vital connection with the missionary responsibility of the church It rewards our careful attention Stephen Williams Professor of Systemic Theology at Union Theological College Belfast Eschatology in relation to mission is often reduced to plans for obviating the Great Commission as soon as possible or to lurid end time scenarios that feed our fantasy more than they fuel biblical mission So it is refreshing to have this wide ranging in depth study of the theme that engages with one of the most well known theologians of biblical hope Jürgen Moltmann alongside a number of renowned evangelical scholars yet stays rooted in the text and vision of the Bible itself This is searching theology in the service of biblical mission as all theology ultimately should be Chris Wright International Director Langham Partnership International

**Rediscovering the Natural Law in Reformed Theological Ethics** Stephen J. Grabill, 2006-10-05 Is knowledge of right and wrong written on the human heart Do people know God from the world around them Does natural knowledge contribute to Christian doctrine While these questions of natural theology and natural law have historically been part of theological reflection the radical reliance of twentieth century Protestant theologians on revelation has eclipsed this historic connection Stephen Grabill attempts the treacherous task of reintegrating Reformed Protestant theology with natural law by appealing to Reformation era theologians such as John Calvin Peter Martyr Vermigli Johannes Althusius and Francis Turretin who carried over and refined the traditional understanding of this key doctrine Rediscovering the Natural Law in Reformed Theological Ethics calls Christian ethicists theologians and laypersons

to take another look at this vital element in the history of Christian ethical thought

**The Quest for the Historical Adam**  
 William VanDoodewaard, 2015-04-01 Was Adam really a historical person and can we trust the biblical story of human origins Or is the story of Eden simply a metaphor leaving scientists the job to correctly reconstruct the truth of how humanity began Although the church currently faces these pressing questions exacerbated as they are by scientific and philosophical developments of our age we must not think that they are completely new In *The Quest for the Historical Adam* William VanDoodewaard recovers and assesses the teaching of those who have gone before us providing a historical survey of Genesis commentary on human origins from the patristic era to the present Reacquainting the reader with a long line of theologians exegetes and thinkers VanDoodewaard traces the roots development and at times disappearance of hermeneutical approaches and exegetical insights relevant to discussions on human origins This survey not only informs us of how we came to this point in the conversation but also equips us to recognize the significance of the various alternatives on human origins It also includes a foreword written by Dr R Albert Mohler Jr Table of Contents 1 Finding Adam and His Origin in Scripture 2 The Patristic and Medieval Quest for Adam 3 Adam in the Reformation and Post Reformation Eras 4 Adam in the Enlightenment Era 5 Adam in the Nineteenth and Early Twentieth Centuries 6 The Quest for Adam From the 1950s to the Present 7 What Difference Does It Make Epilogue Literal Genesis and Science

*Public Theology for a Global Society*  
 Deidre King Hainsworth, Scott R. Paeth, 2010 In these essays honoring ethicist Max Stackhouse leading Christian scholars consider the historical roots and ongoing resources of public theology as a vital element in the church's engagement with global issues *Public Theology for a Global Society* explores the concept of public theology and the challenge of relating theological claims to a larger social and political context The range of essays included here allows readers to understand public theology as both theological practice and public speech and to consider the potential and limits of public theology in ecumenical and international networks The essays begin by introducing the reader to the development of public theology as an area of study and to the historical interrelationship of religious legal and professional categories The later essays engage the reader with emerging problems in public theology as religious communities encounter shifting publics that are being transformed by globalization and sweeping political and technological changes The breadth and scholarship of *Public Theology for a Global Society* make this volume a fitting tribute to Stackhouse a central figure in Christian ethics and pioneer in the church's study of globalization

Minjung and Process  
 Hiheon Kim, 2009 This book reconstructs the legacy of Korean minjung theology by reformulating its essential ideas in a dialogue with process thought In a minimal sense this study is a theological reinterpretation of the doctrine of the minjung messiah an idea which historically suffered from a misunderstanding that minjung theology created a messianic confusion while replacing christology and soteriology by a radical anthropology This erroneous conception occurred when the idea was placed within the philosophically dualistic framework of traditional doctrines in which the work of minjung is totally separated from the work of Christ In order to avoid

such a dualistic understanding the author critically adopts process panentheism and makes minjung ideas more communicable and more comprehensive in current theological religious and philosophical debates Beyond defending the idea of the minjung messiah he also argues for an inclusive minjung hermeneutics that promotes the fundamental insight of minjung theology in philosophical clarity Through minjung hermeneutics minjung theology expands its practical concern and overcomes the theoretical nihilism in postmodern studies     *Early Stuart Polemical Hermeneutics* Darren M. Pollock, 2017-12-04 Darren M Pollock examines the 1611 Romans hexapla commentary by the prolific Church of England preacher and controversialist Andrew Willet While some have considered Willet s later biblical commentaries to have been a retreat from his earlier engagement in religious controversy the author argues that his exegetical work maintained a significant element of anti Catholic polemics only expressed in a different genre This polemical hermeneutic served as an organizing principle and as a means by which to clarify the presentation of traditional Reformed readings in relief against a body of Roman Catholic theology that Willet believed threatened the gospel of grace Paul s letter provided ample opportunity for Willet to identify what is distinctive about Reformed theology or rather as Willet would have it the particular ways in which papist dogma had diverged from the true line of Christian belief running from the Fathers through to the truly catholic Reformed church of the seventeenth century Willet s exegesis highlights many of the polemical issues that had long been contended between Protestants and Catholics including the authentic versions of the bible Scripture s attributes and principles of interpretation as well as doctrines like justification predestination the assurance of salvation and the place of good works A close investigation into Willet s exegetical method also helps to see how an identifiable hermeneutical lens is consistent with a disciplined reading that is faithful to the text His polemical focus does not corrupt his exegesis or force upon it meanings that are alien to the text itself rather his polemical hermeneutic serves to focus his attention and frame positive doctrinal statements against the sharp contrast of alternate readings
