Conflict Resolution In South Caucasus Challenges To International Efforts:

Conflict Resolution in South Caucasus Esmira Jafarova, 2014-12-18 This book aims to highlight the efforts by the international community to facilitate solutions to the conflicts in the South Caucasus and focuses particularly on the existing challenges to these efforts. The South Caucasus region has long been roiled by the lingering ethno national conflicts Nagorno Karabakh conflict between Armenia and Azerbaijan Abkhazia and South Ossetia conflicts within Georgia that continue to disrupt security and stability in the entire region. Throughout different phases of the conflicts the international community has shown varying degrees of activism in conflict resolution. For clarity purposes it should be emphasized that the notion of international community will be confined to the relevant organizations that have palpable share in the process the UN the OSCE and the EU and the states that have the biggest impact on conflict resolution and the leverage on the conflicting parties Russia Turkey and the United States.

Conflict Areas in the Caucasus and Central Asia Arda Özkan, Göktürk Tüysüzoglu, 2022-01-25 The Caucasus region and Central Asia covers a large part of the Eurasian Both regions where Russia and China have a serious influence and visibility also have a location that reflects the hegemonic expectations of both these actors. In this context domestic political developments and even internal conflicts in the region can be linked to the policies of Russia and China to a certain extent and have the potential to affect the motives of these two powers. Although Central Asia is rich in natural resources it is landlocked and has lagged other nations in terms of agricultural production and industrial development. Although the Caucasus is divided into the North the territory of Russia and the South where three independent states are located it is insufficient in terms of production and development. The Caucasus stands out especially with energy projects and its feature of being a commercial corridor.
