Project:	Consolidated Waste Water Treatment Plant	For Month of:	June 2021
Location:	Powell River, BC		

Report

1 PROJECT PROGRESS

1.1 Treatment Site

Preceding Month Progress

Additional treatment site survey was undertaken and site area and roadways were staked. Utility locates began in May. Further utility locates were undertaken in June. Mobilization continued with site offices being brought to site. Earth moving construction equipment was also mobilized to site and excavation works were initiated. Other mobilization work included the set-up of the water treatment tanks and tank staging. Wood chip piles were relocated from the site lay down area. And fencing was provided around the site area. Power has been provided to site as well as communication networks.

Extensive excavation and ground preparation was undertaken this month. At its peak, four excavation machines were employed as well as a bulldozer. The weather was mostly dry and surface layers were easily removed. The underlying layers are mostly till with some boulders. The till is hard and has been found to be more difficult to remove. Approximately 30% of the bulk removal was completed.

Concrete forms have been delivered to site for upcoming construction work. A spray down system has been installed to assist with the control of dust.

The contractor has received some of the first submittals from subcontractors and vendors. The contractor has also had meetings with the vendors of novated equipment.

Month Look Ahead

Excavation will continue through July. This will be the most significant work in the coming month. The excavation will include digging out for the bypass and other piping.

The pump base forms and reinforcement will be prepared and the first permanent works concrete pour will occur. The base for the tower crane will also be prepared.

The contractor will be constructing concrete mock-ups including a water-stop mock-up.

There will be further submittals provided in July including the rebar submittal.

1.2 Offsite Works

The months of May and June have seen the offsite works package go out to Tender. The Tender is expected to close in July with a Contract award shortly after.
