Confessions Of An Inner Space Cadet:

Confessions of an Inner Space Cadet Alan Reeder-Camponi, 2015-05-15 In the 1970 s in the USA especially in Palo Alto California if someone was not experimenting in some way with altered states of consciousness and self awareness they were probably considered silly perhaps superficial In 2015 if someone is experimenting with altered states of consciousness it is likely the general population will consider them to be a bit silly Times change and cultural values change If you are someone who has already done such experimenting this book may not be for you You already have your own memories of psychoactive chemicals and meditation techniques But if the notion of altered states of consciousness is new to you you might find this book a good primer My intention in this book is to be both entertaining and instructive What might you learn from this book Above all I think you might come to agree with me that the mind is a wonderful tool but not such a good place in which to live There are other choices Meditation and psychoactive chemicals are both means of escaping the persistent control of the inner dialogue the concrete mind in essence of stepping outside of your everyday mind Well You might ask What s the point of venturing out of my mind when I can use that time to make more money I totally understand this point of view I pretty much abandoned pursuing self awareness during the middle of my life in favor of pursuing money Probably no one would argue with the idea that having enough money can make ones life more comfortable But being comfortable can be different than being satisfied Money can buy you a box of chocolates I believe self awareness on the other hand has the potential to turn your entire life into a box of chocolates How does it do that It shows you that you are the box of chocolates

Confessions of a Government Man Alan L. Greenberg, 2010-05 **Confessions of a Government Man** is filled with astute often hilarious memoirs of Alan Greenberg s thirty nine year career with the U S General Services Administration His real life tales of deception and sleight of hand maneuvers in high government places include a cast of characters worthy of Hollywood A few of his stories are a bit risque and some show that incisive philosophical advice sometimes comes from the most unlikely sources Throughout we see plenty of salty New York culture At various times Greenberg was threatened with arrest and contempt of court detained at gunpoint by a judge had an off the cuff wisecrack end up on national television and even had a curse put on him by a spiritual leader Through it all he maintained his sense of humor Greenberg gives us a true insider s vantage point With contracting authority for a stack of taxpayer money which went into the billions and had the potential for providing a lot of lifetime meal tickets it was little wonder that Greenberg was very popular with the construction industry and any politician with an eye for publicity Many of his stories give the reader insight into realities that media coverage somehow missed Reporters in their zeal to dig up dirt often followed minutia while the true stories went unreported One example was the 10 million savings to a project which was actually a 40 million addition Amazingly nobody was the wiser Experience is the best teacher and during his many years on the job Alan Greenberg knew what it was like to be under siege by the media the Congress the White House and concerned citizens He developed rules of survival that enabled him to be a

success in the large complex bureaucracy of our government He shares these years with us happily turning them into a delightful and entertaining romp Professor Parkinson would be proud This book should be required reading in every business school Solid lessons in business and life told in a most unique manner Read the chapters in any sequence and the result is still the same sound business logic with unforgettable memory joggers Barry Becher Ginsu Knife Creator co author of The Wisdom of Ginsu Mr Greenberg s keen insight and humor make this an indispensable guide for anyone trying to survive and flourish in a large organization Len Fried Director of Manufacturing Excellence Retired IBM Microelectronics As our big ass suit author states they woke up on third base and thought they hit a triple Mr Greenberg hit a home run with this most entertaining book Well done kid from Brooklyn and CONGRATULATIONS for allowing us plain folk to see what really goes on behind the scenes in our government with its Damon Runyonesque cast of characters Lew Duberman CFO Retired Helene Curtis Industries Inc **Confessions of a Q.C.
