Citizenship Beyond Nationality Luicy Pedroza, 2019-07-26. In *Citizenship Beyond Nationality*, Luicy Pedroza considers immigrants who have settled in democracies and who live indistinguishably from citizens: working, paying taxes, making social contributions, and attending schools, yet lack the status gained either through birthright or naturalization that would give them full electoral rights. Referring to this population as *denizens*, Pedroza asks what happens to the idea of democracy when a substantial part of the resident population is unable to vote. Her aim is to understand how societies justify giving or denying electoral rights to *denizens*. Pedroza undertakes a comparative examination of the processes by which *denizen* enfranchisement reforms occur in democracies around the world in order to understand why and in what ways they differ. The first part of the book surveys a wide variety of reforms, demonstrating that they occur across polities that have diverse naturalization rules and proportions of *denizens*. The second part explores *denizen* enfranchisement reforms as a matter of politics, focusing on the ways in which proposals for reform were introduced, debated, decided, and reintroduced in two important cases: Germany and Portugal. Further, comparing Germany and Portugal to long familiar cases, she reveals how *denizen* enfranchisement processes come to have a limited scope or to even fail, and yet reignite. In the final part, Pedroza connects her theoretical and empirical arguments to larger debates on citizenship and migration. *Citizenship Beyond Nationality* argues that the success and type of *denizen* enfranchisement reforms rely on how the matter is debated by key political actors and demonstrates that when framed ambitiously and in inclusive terms, these deliberations have the potential to redefine democratic citizenship, not only as a status but as a matter of politics and policy.

Identity and the Second Generation Faith G. Nibbs, Caroline B. Brettell, 2021-04-30. Most recently, Americans have become familiar with the term *second generation* as it is applied to children of immigrants who now find themselves citizens of a nation built on the notion of assimilation. This common worldwide experience is the topic of study in *Identity and the Second Generation*. These children test and explore the definition of citizenship and their cultural identity through the outlets provided by the Internet, social media, and local community support groups. All these factors complicate the ideas of boundaries and borders of citizenship and even of home. Indeed, the *second generation* is a global community and endeavors to make itself a home regardless of state or citizenship. This book explores the social worlds of the children of immigrants. Based on rich ethnographic research, the contributors illustrate how these young people, the so-called *second generation*, construct and negotiate their lives. Ultimately, the driving

question is profoundly important on a universal level How do these young people construct an identity and a sense of belonging for themselves and how do they deal with processes of inclusion and exclusion *Global Migration K.*

Dilemma Michelle Hale Williams,2013 This work seeks to explore the contemporary challenge of government in multicultural societies drawing together a wide range of contributors to examine how ethnic difference could better understood and mediated by modern nation states Divided into three sections the book centres round the notion that changing patterns of migration bring escalating obstacles to integration or assimilation In the first section contributors focus on the theory that immigrants are the actors that catalyze contemporary multicultural dilemmas within states with a particular focus on diaspora and how a diaspora community may differ in some ways from other kinds of immigrant community Section two identifies key factors in shaping ethnic identity before moving on to examine the state of the debate over whether identity can be changed or manipulated The contributors to this section provide valuable insights into the catalysts and causes of ethnic division and tension by showing factors in the development of ethnic identity In the third section the focus turns to strategies for mediating multicultural challenges and managing internal diversity in multicultural society offering structural and institutional solutions with evidence of application in specific cases and country contexts Offering a comprehensive overview of this pressing issue and drawing on a wide range of case studies this work will be of interest to students and scholars of migration political sociology race and ethnic studies Thinking Through Sociality
