The CPSM qualification enables professionals to gain a clear understanding of their organization's supply operation and enable managers to take an active role in critical decisions. It is slightly different from APICS's CSCP in that it is targeting those who wish to have a broad understanding of all components of the profession. It focuses primarily on strategic supply management less on fundamental or tactical level knowledge. CSCP places heavier focus on integrated supply chain while CPSM does not. To succeed in the CPSM exam you need to get yourself truly familiar with the most important information by going through sufficiently focused revision. This is where we fill the gap you may think of our product as the unofficial supplement to the regular training class or you may view it as a standalone module with a focus on building up your exam readiness. This book covers ALL parts of the exam. You would normally complete all parts on the same day. Time wise you have approximately one minute per question, yes it is tight.
