Anbar, 2012-11-23 Many patients with pulmonary complaints fail to improve despite physicians best efforts Sometimes we ascribe this failure to lack of adherence with therapy or to the severity of the condition What we often fail to appreciate however is that sometimes the lack of improvement can be explained by the patients psychological states The first section of Functional Respiratory Disorders When Respiratory Symptoms Do Not Respond to Pulmonary Treatment will help clinicians recognize functional respiratory symptoms that can arise as a result of both organic and psychological causes The

second section of this book provides detailed discussions of such disorders links to video examples of laryngoscopic evaluation of patients with vocal cord issues case studies and quizzes Examples and exercises that should strengthen the clinician's confidence in identifying and treating these functional conditions are also provided Finally the third section of the book will help the clinician differentiate the patients for whom referral to a mental health provider is mandatory from those for whom other approaches may be useful For the latter group the book teaches clinicians to empower themselves by learning how to incorporate various therapies for functional disorders into their practice including biofeedback breathing techniques basic cognitive behavioral therapy techniques and hypnosis Links are provided to instructive video examples of biofeedback hypnosis and speech therapy Practical strategies for obtaining training in these modalities are provided in the appendix Functional Respiratory Disorders When Respiratory Symptoms Do Not Respond to Pulmonary Treatment is an important new book that will help clinicians consider the possible impact of functional contributions to the clinical presentation of every patient with respiratory symptoms and identified respiratory disease

Choice, 2005 **Neurology Oral Boards Review** Eroboghene E. Ubogu, 2007-11-05 It was 6 AM and the New Orleans Hilton lobby was dotted with young neurologists in suits wandering aimlessly many mumbling to themselves all with the eyes of a rough night on call This was the morning of my Oral Board examination Despite three years as a neurology resident additional time as a fellow and the experience of having performed probably more than 1000 neurological examinations by this time I was deathly afraid of what this day would bring The exam organizers had met with us the day before and given the overwhelming message to RELAX Certainly this is sound advice prior to any examination but the requisite for passing is knowing the material This requires preparation as well as practice An excellent first step is to use Eroboghene Ubogu's Neurology Oral Boards Review in the months before you begin studying for the Boards in earnest A quick read will provide an internal assessment of your strengths and weaknesses which should guide the study plan The major neurology textbooks which anyone sitting for the Boards should already have in their possession should be studied Finding a senior faculty member to quiz you is very helpful There is no substitute for finding one of your former residency supervisors or a senior colleague in your group practice to perform a simulated Oral Board session **Transplantation of the Liver** Ronald W.
