Fundamental Questions in Cross-Cultural Psychology Fons J. R. van de Vijver, Athanasios Chasiotis, Seger M. Breugelmans, 2011-03-17 Cross cultural psychology has come of age as a scientific discipline but how has it developed The field has moved from exploratory studies in which researchers were mainly interested in finding differences in psychological functioning without any clear expectation to detailed hypothesis tests of theories of cross cultural differences This book takes stock of the large number of empirical studies conducted over the last decades to evaluate the current state of the field Specialists from various domains provide an overview of their area linking it to the fundamental questions of cross cultural psychology such as how individuals and their cultures are linked how the link evolves during development and what the methodological challenges of the field are This book will appeal to academic researchers and post

graduates interested in cross cultural research Internationalizing the Psychology Curriculum in the United States
Frederick Leong, Wade E. Pickren, Mark M. Leach, Anthony J. Marsella, 2011-12-27 The psychology community recognizes that cultivating an international worldview is crucial not only to professionals and researchers but more importantly for professors and students of psychology as well. It is critically necessary for psychologists to learn from their colleagues who are working in different cultural contexts in order to develop the type of knowledge and psychological understanding of human behavior that will be maximally useful to practitioners and researchers alike. This volume Internationalizing the Psychology Curriculum in the United States provides information and resources to help psychology faculty educate and train future generations of psychologists within a much more international mindset and global perspective. Recognizing that cultural context are central to a true and accurate psychology, the authors describe how cultural, economic, political, and social factors in different countries frame individual experience and affect the science and practice of psychology. Each of the chapters will provide a content specific overview of how the curriculum in psychology with regards to social development, clinical counseling psychology, etc. will need to be modified in order to present a much more global view of psychology.

Culture across the Curriculum Kenneth D. Keith, 2018-04-12 Culture across the Curriculum provides a useful handbook for psychology teachers in the major subfields of the discipline. From introductory psychology to the foundations in such areas as social psychology, statistics, research methods, memory, cognition, personality, and development to such specialized courses as language, sexual minorities, and peace psychology, there is something here for virtually every teacher of psychology. In addition to discussions of the rationale for inclusion of cultural context in their areas of specialization, these experienced teachers also offer advice and ideas for teaching exercises and activities to support the teaching of a psychology of all people.

Cross-Cultural Perspectives on Early Childhood Theodora Papatheodorou, Janet Moyles, 2012-01-24 By exploring the key issues, arguments, and messages that exist in the field, this book provides an international comparative look at aspects of early childhood education and care. Pedagogical practices, learning cultures, and the professional development of practitioners are considered within the wider political agenda of different countries. Pertinent policy and practice issues such as numeracy and literacy are carefully examined. The text highlights how important it is to engage with and listen to children to provide positive learning encounters. Divided into four parts, the book covers children's learning cultures, culture of pedagogy, cultural perspectives on curriculum, and cultures of professional development. Chapters cover key topics such as multi-sensory learning, outdoor learning, children's voice, children as mentors, literacy, and mathematics. With expert contributors drawn from across the world, this book is vital reading for all those studying comparative education or early years courses. Theodora Papatheodorou PhD is an early years educator and researcher. Janet Moyles is Professor Emerita at the Faculty of Education, Anglia Ruskin University, and an early years consultant.
