Desire Dialectic And Otherness An Essay On Origins Second Edition:

Desire, Dialectic, and Otherness William Desmond, 2013-11-08 Many philosophers since Hegel have been disturbed by the thought that philosophy inevitably favors sameness over otherness or identity over difference Originally published at a time when the issue was not so widely discussed in the English speaking world William Desmond here offers a constructive and positive approach to the problem of difference and otherness He systematically explores the question of dialectic and otherness by analyzing how human desire inevitably seeks immanent wholeness in a manner that opens it to irreducible otherness He faces the difficulties bequeathed to Continental thought by Hegelian dialectic and its tendency to subordinate difference to identity whether appropriately or not Unlike many recent critics of Hegel he argues that we must preserve what is genuine in dialectic Granting the positive power of dialectic Desmond offers his first articulation of a further philosophical possibility what he terms the Metaxological a discourse of the between a discourse doing justice to desire's search for wholeness without any truncating of its radical openness to otherness In a wide ranging yet unified discussion Desmond tackles such issues as the nature of the self the ambiguous restlessness and inherent power of being revealed by human desire desire's relation to transcendence its openness to otherness in agapeic good will and in relation to the sublime as an aesthetic infinitude Finally Desmond brings this metaxological understanding to bear on the metaphysical question of the ultimate origin This book is a remarkable introduction to Desmond's metaxological philosophy prefiguring many of the ideas with which his later thought is associated This second edition contains a substantial new preface and an afterword to each chapter in which Desmond reflects on the material from the standpoint of his current thinking **Companions in the**

Between Renée Köhler-Ryan, 2022-01-01 The contemporary philosopher William Desmond has many companions in thought and one of the most important of these is Augustine In lucid prose that draws on the riches of a vibrant philosophical theological tradition Renée Köhler-Ryan explores Desmond's metaxological philosophy She brings together philosophy theology and literature to elaborate on the conversation that Desmond's philosophical work in discovering how humans are constantly between sustains with a tradition of thinkers that also includes Plato Thomas Aquinas and Shakespeare Whether considering how our elemental wonder at creation brings us closer to God or how our most intimate revelations about being human happen in the interior space of prayer reading Desmond with Augustine illuminates a porous and interdisciplinary space of inquiry With a foreword from Desmond himself *Companions in the Between* is a unique contribution to the growing body of scholarship on his thought Köhler-Ryan's analysis will entice any reader who wants to know more about how contemporary philosophy can contest a space where philosophers are formulaically expected to shy away from divine transcendence **The Significance of Indeterminacy** Robert H. Scott, Gregory S. Moss, 2018-07-20 While indeterminacy is a recurrent theme in philosophy less progress has been made in clarifying its significance for various philosophical and interdisciplinary contexts This collection brings together early career and well known philosophers including Graham Priest

Trish Glazebrook Steven Crowell Robert Neville Todd May and William Desmond to explore indeterminacy in greater detail The volume is unique in that its essays demonstrate the positive significance of indeterminacy insofar as indeterminacy opens up new fields of discourse and illuminates neglected aspects of various concepts and phenomena The essays are organized thematically around indeterminacy's impact on various areas of philosophy including post Kantian idealism phenomenology ethics hermeneutics aesthetics and East Asian philosophy They also take an interdisciplinary approach by elaborating the conceptual connections between indeterminacy and literature music religion and science Gandhi's Search for the Perfect Diet Nico Slate, 2019-02-25 Mahatma Gandhi redefined nutrition as fundamental to building a more just world What he chose to eat was intimately tied to his beliefs and his key values of nonviolence religious tolerance and rural sustainability developed in tandem with his dietary experiments His repudiation of sugar chocolate and salt expressed his active resistance to economies based on slavery indentured labor and imperialism Gandhi's Search for the Perfect Diet sheds new light on important periods in Gandhi's life as they relate to his developing food ethic his student years in London his politicization as a young lawyer in South Africa the 1930 Salt March challenging British colonialism and his fasting as a means of self purification and social protest during India's struggle for independence What became the pillars of Gandhi's diet vegetarianism limiting salt and sweets avoiding processed food and fasting anticipated many twenty first century food debates and the need to build healthier and more equitable global food systems Inventing Christic Jesuses: Rules and Warrants for Theology Charles A. Wilson, 2018-11-01 In the first comprehensive proposal for revisionist theology's deployment of historical Jesus research Inventing Christic Jesuses rejects positions that insulate theology from Jesus research By setting out theological methods warrants and rules in dialogue with an analysis of the Jesus historians of the Third Quest c 1980 2010 the study charts a path toward a quested christology positioned between categorical rejection and uncritical acceptance of historical results on Jesus Volume 1 Method analyzes the methods and values of historical research on Jesus and identifies the retrojective activity of value production when historians in conversation with historical sources invent images of Jesus Volume 2 Christological Recommendations gathers potential contributions of Jesus research for revisionist theology according to the cataphatic apophatic and eminent pattern of classical theology By attending to the limits and opportunities afforded by historical research both negative and positive the argument retrieves for theology the complex way that historians shape same and different association and dissociation in the production of their Jesuses Then it analyzes how values shape Jesuses in a pervasive Narcissus project to invent a self and a community through imaging Jesus Proposing that the disciplined invention of Jesuses is highly useful for theology the book ends with recommendations for a quested christology **Desire, Dialectic, and Otherness** William Desmond, 2014-09-25 This book is a philosophical effort to deal with the problem of otherness particularly as it has been bequeathed to contemporary thought by the legacy of German idealism whose most challenging influential thinker was Hegel Philosophies of Christianity Balázs M. Mezei, Matthew Z.

Vale,2020-01-09 This book examines key issues in Christianity from various philosophical points of view It brings together European authors with American theologians and philosophers on an interconfessional basis Coverage combines analytical and continental approaches in a unique way This comprehensive innovative analysis will help readers gain a deep understanding into a wide range of philosophical approaches to basic Christian problems The novelty of this volume is the unique combination of philosophical and theological approaches It merges these points of view in a rational manner which characterizes segments of Anglo American and Continental thought The scope of the work covers historical issues contemporary problems of atheism and also novel approaches to fundamental notions Readers will learn about questions surrounding the French New Theology Zizek s philosophical sources the notion of revelation and much more As a work produced by European and United States scholars this volume is an important contribution not only to the dialogue between various academic cultures but also to the expression of their fruitful cooperation which grounds and inspires serious academic research The readership of this work begins at an undergraduate level and reaches up to academic researchers and professors interested in borderline problems between philosophy and theology history and contemporary issues **New Perspectives on Hegel's Philosophy of Religion** David Kolb,1992-01-01 Hegel s ideas about the nature of religion its history and its relation to philosophy have had great influence on his friends and foes alike Relying on the new critical edition of Hegel s separate lecture courses the essays in this book provide new insights into Hegel s ideas and challenge the way we think today Crucial topics are discussed Is Hegel a Christian Does the political community absorb religion How does religion relate to philosophy What does Hegel have to say about evil and tragedy about the persistence of mythology about mysticism The book also touches on the relation of Hegel s thoughts to deconstructive insights into religion **Godsends** William Desmond,2021-11-15 Godsends is William Desmond s newest addition to his masterwork on the borderlines between philosophy and theology For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology idiom grammar dialectic and its metaxological transformation in an attempt to reopen certain boundaries between metaphysics and phenomenology between philosophy of religion and philosophical theology between the apocalyptic and the speculative and between religious passion and systematic reasoning In Godsends Desmond s newest addition to his ambitious masterwork he presents an original reflection on what he calls the companioning of philosophy and religion Throughout the book he follows an itinerary that has something of an Augustinian likeness from the exterior to the interior from the inferior to the superior The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture an exploration of the middle space the metaxu between the finite and the infinite a dwelling with solitudes as thresholds between selving and the sacred a meditation on idiot wisdom and transcendence in an East West perspective an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a

meditation on the beatitudes as exceeding virtue in light of Aquinas's understanding and culminating in an exploration of God's sends as telling us something significant about the surprise of revelation in word, idea and story. God's sends is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers. It will also interest students of philosophy and religion, especially philosophical theology and philosophical metaphysics.

Wayward and Homebound William Desmond, 2025-11-01. Offers an expansion of Desmond's explorations in the philosophy of the between by considering in a fresh way the distinctive features of Irish thought with reference to religion, culture and poetry. In *Wayward and Homebound* William Desmond explores the philosophy of the between in connection with traditions of Irish thought and culture, especially poetry, drawing upon the metaxological philosophy developed most systematically in the award-winning *Being and the Between*. *Ethics and the Between* and *God and the Between*. It begins with a broad overview of this notion in connection with Irish thinking and culture by contrast with French, German and Greek variations of the notion. It touches on figures like John Scotus Eriugena, John Toland, George Berkeley and Edmund Burke as well as major poets and writers like Swift, Yeats, Joyce and Beckett. The paradoxical twinning of being at home and not being at home and the relation of thought and exile in an Irish as well as more cosmopolitan setting are explored. Desmond presents a synopsis of metaxological philosophy and how it contributes to aesthetics, ethics, religion and metaphysics. In an extended exploration of Irish betweenings, reflections are offered that move from nature to culture with four sequences of reflections on islanding, naturing, homing and wording. Additional concerns come to light such as insular thinking, the ecology of land and sea, religion, postcolonialism and the dialogue of poet and philosopher.
