Desistance Transitions And The Impact Of Probation By Sam King 2015 06 09:

Desistance Transitions and the Impact of Probation Sam King, 2013-10-01 Moving away from criminal behaviour can be fraught with difficulties. Often it can involve leaving behind old habits, customs, and even friends while at the same time adopting a new way of life. How do individuals go about making a decision to give up crime? How do they plan to sustain this decision? And in what ways does probation help? This book explores these questions. Based on in-depth interviews with a group of men under probation supervision, Sam King investigates the factors associated with making a decision to desist from crime. The book examines strategies for desistance and explores the factors that individuals consider when they are thinking about how they will desist. In doing so, the book sheds new light on existing understandings of desistance from crime and helps to develop our understandings of the role that individuals play in constructing their own desistance journeys. This book also highlights the role of probation in this process, offering a timely and critical review of the nature of probation under the New Labour government in the UK between 1997-2010. The findings indicate that we should allow Probation Officers greater autonomy and discretion within their roles and that we should free them from the bureaucracy of risk assessment and targets. Moreover, the book warns against the potential fragmentation of community supervision. As such, the book will be of interest to criminology students, researchers, academics, policymakers, and practitioners, particularly those who work with ex-offenders in the community.

An Introduction to Life-Course Criminology Christoffer Carlsson, Jerzy Sarnecki, 2015-11-23 Most people engage in crime at some point in their lives, but why does almost everybody stop soon after? And why do a small number of offenders persist in crime? These two questions constitute the core of the field, often known as life course criminology. This book provides a comprehensive introduction to life course criminology. It covers the dominant theories and methodologies in the field and equips you with all you need to succeed in your studies on the subject. The book discusses the methodologies of life course and longitudinal research. Explains and critiques the major theories of life course criminology. Considers the issues of risk prediction, onset, persistence, and desistance of criminal activity. Draws on research from studies in Europe, the UK, US, and Australia, including the Stockholm Life Course Project. Written by two leading figures in the field, this is an authoritative text that will guide you through your studies in life course criminology, criminal career research, and developmental criminology.

Creating Space for Shakespeare Rowan Mackenzie, 2023-02-09 Applied Shakespeare is attracting growing interest from practitioners and academics alike, all keen to understand the ways in which performing his works can offer opportunities for reflection, transformation, dialogue regarding social justice, and challenging of perceived limitations. This book adds a new dimension to the field by taking an interdisciplinary approach to topics which have traditionally been studied individually, examining the communication opportunities Shakespeare's work can offer for a range of marginalized people. It draws on a diverse range of projects from across the globe, many of which the author has facilitated or been directly involved with, including those with incarcerated people, people with mental health issues, learning disabilities,

and who have experienced homelessness As this book evidences Shakespeare can be used to alter the spatial constraints of people who feel imprisoned whether literally or metaphorically enabling them to speak and to be heard in ways which may previously have been elusive or unattainable The book examines the use of trauma informed principles to explore the ways in which consistency longevity trust and collaboration enable the development of resilience positive autonomy and communication skills It explores this phenomenon of creating space for people to find their own way of expressing themselves in a way that mainstream society can understand whilst also challenging society to see better and to hear better This is not a process of social homogenisation but of encouraging positive interactions and removing the stigma of marginalization

Twenty Million Angry Men James M. Binnall, 2021-02-16 Today all but one U S jurisdiction restricts a convicted felon's eligibility for jury service Are there valid legal reasons for banishing millions of Americans from the jury process How do felon juror exclusion statutes impact convicted felons jury systems and jurisdictions that impose them *Twenty Million Angry Men* provides the first full account of this pervasive yet invisible form of civic marginalization Drawing on extensive research James M Binnall challenges the professed rationales for felon juror exclusion and highlights the benefits of inclusion as they relate to criminal desistance at the individual and community levels Ultimately this forward looking book argues that when it comes to serving as a juror a history of involvement in the criminal justice system is an asset not a liability

Going Straight on Probation Samuel Joshua King, 2010 *Criminal Careers in Transition* Stephen Farrall, Ben Hunter (Lecturer in Criminology), Gilly Sharpe, Adam Calverley, 2014 This study follows the completion of a fifth sweep of interviews with members of a cohort of former probationers interviewed since the late 1990s The research has been about developing a long term evidence base rather than a rapid assessment which does not have the time fully to explore the issue namely whether and how probation supervision assists desistance from crime The book explores how probation supervision helped people to stop offending and investigates new areas such as victimization citizenship emotional trajectories of reform the spatial dynamics of desistance
