

Rethinking Philosophy and Theology with Deleuze

A New Cartography

Brent Adkins and Paul R. Hinlicky

Deleuze And Theology Philosophy And Theology

Mary Bryden

Deleuze And Theology Philosophy And Theology:

Deleuze and Theology Christopher Ben Simpson, 2012-11-02 What can a theologian do with Deleuze While using philosophy as a resource for theology is nothing new Gilles Deleuze 1925 1995 presents a kind of limit case for such a theological appropriation of philosophy a thoroughly modern philosophy that would seem to be fundamentally hostile to Christian theology a philosophy of atheistic immanence with an essentially chaotic vision of the world Nonetheless Deleuze s philosophy can generate many potential intersections with theology opening onto a field of configurations a fractious middle between radical Deleuzian theologies that would think through theology and reinterpret it from the perspective of some version of Deleuzian philosophy and other theologies that would seek to learn from and respond to Deleuze from the perspective of confessional theology to take from the encounter with Deleuze an opportunity to clarify and reform an orthodox Christian self understanding

Rethinking Philosophy and Theology with Deleuze Brent Adkins, Paul R. Hinlicky, 2013-06-06 The debate between faith and reason has been a dominant feature of Western thought for more than two millennia This book takes up the problem of the relation between philosophy and theology and proposes that this relation can be reconceived if both philosophy and theology are seen as different ways of organising affects Brent Adkins and Paul R. Hinlicky break new ground in this timely debate in two ways Firstly they lay bare the contemporary dependence on Kant and propose that our Kantian inheritance leaves us with an insuperable dualism Secondly the authors argue that the philosophy of Gilles Deleuze provides a way of resolving the debate between faith and reason that does justice to philosophy and theology by reconceiving of both as assemblages Deleuze s philosophy differentiates domains of thought in terms of what they create This seems like a particularly fruitful way to pursue the problem of the relations among philosophy and theology because it allows their distinction without at the same time placing them in opposition to one another

Iconoclastic Theology F. LeRon Shults, 2015-02-12 F. LeRon Shults explores Deleuze s fascination with theological themes and shows how his entire corpus can be understood as a creative atheist machine that liberates thinking acting and feeling

Theology After Deleuze Kristien Justaert, 2012-06-28 Deleuze s relationship with theology is a complex one Indeed there seem to be many possible objections to such an assemblage taking place In the first book of its kind to engage with this seemingly problematic dialogue Kristien Justaert shows the ways in which Deleuze s thought can in fact advance issues in political and liberation theology in particular while also exploring the important theological and spiritual aspirations contained in Deleuze s philosophy itself as part of his lifelong quest for the Absolute Justaert examines the theological components in Deleuze s writings investigating the theological potential of four notions that circle around the central Deleuzian concept of Life immanence spirituality creativity and politics The book goes on to connect Deleuze with both established theologies and possible theologies for the future identifying areas in which Deleuze can contribute to the dynamics of contemporary theology and argues that aspects of Deleuze s philosophy can enable theology to become more meaningful in a globalised

world This is the ideal introduction to Deleuzian theologies and Deleuze's own theology for advanced undergraduate and postgraduate students **Deleuze and Religion** Mary Bryden, 2002-01-04 Despite the ever expanding body of Deleuzian scholarship single volume has explored the religious dimensions of Deleuze's writing Now Mary Bryden has assembled a team of international scholars to do just that Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate as well as the ways in which it contributes to those debates This volume will be invaluable for researchers teachers and students of theology philosophy critical theory cultural studies and literary criticism as well as to students of French who read Deleuze's work in its original language **Deleuze and Theology** Christopher Ben Simpson, 2012-11-22 An exploration of the thought of Gilles Deleuze and its relevance to theology **Mysticism as Revolt** Petra Carlsson Redell, 2014 **Deleuze and the Schizoanalysis of Religion** F. LeRon Shults, Lindsay Powell-Jones, 2016-09-22 This volume brings together some of the leading voices in the field of Deleuze studies to explore and practice a variety of approaches to the schizoanalysis of religion The authors share an enthusiasm for applying Deleuze and Guattari's schizoanalytic project to religion but they display significantly different ways of carrying out its creative and destructive tasks As a whole the book addresses the relevance of Deleuze for contemporary developments in political theology liberation theology Christian doctrine and the recent growth of interest in spirituality and atheism Opening up new lines of flight for Deleuze studies Deleuze and the Schizoanalysis of Religion makes rhizomic connections that will be of interest to scholars in other fields including theology psychology of religion philosophy of religion and the history and practice of Western esotericism

Deleuze and the Naming of God Daniel Colucciello Barber, 2013-12-11 Deleuze's philosophy of immanence with its vigorous rejection of every appeal to the beyond is often presumed to be indifferent to the concerns of religion Daniel Barber shows that this is not the case Addressing the intersection between Deleuze's thought and the notion of religion he proposes an alliance between immanence and the act of naming God In doing so he gives us a way out of the paralysing debate between religion and the secular What matters is not to take one side or the other but to create the new in this world

The Immanence of Theology and the Absurdity of Faith Elijah Prewitt-Davis, 2024-10-14 The constant inundation of the affect and information experienced by contemporary individuals exposes the tragic nature of the world making nihilism an epistemologically reasonable response To counter the threat of nihilism Elijah Prewitt Davis argues that knowledge must be replaced by belief Against the common protestant concept of belief as strictly personal and interior he proposes believing in the world as an absurd and immanent faith in the impossible a belief that allows one to see and feel the potentialities simmering within the world as it is Following Gilles Deleuze call to transform belief Prewitt Davis explores how belief heightens an affective attachment to our embeddedness on the world revealing the potentialities with which time is always pregnant Believing in the world as it is paradoxically becomes the mode of transforming the world inasmuch as the potential for something impossibly new is always immanently present

Fuel your quest for knowledge with Learn from is thought-provoking masterpiece, **Deleuze And Theology Philosophy And Theology** .
