De Wereld Van De Sex:

Sex and Drugs Before Rock 'n' Roll Benjamin Roberts, 2012 Sex and Drugs Before the Rock n Roll is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age. Here well known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms. This study reveals how these young men rebelled breaking from previous generations letting their hair grow long wearing colorful clothing drinking excessively challenging city guards being promiscuous smoking and singing lewd songs. Cogently argued this study paints a compelling portrait of the youth culture of the Dutch Golden Age at a time when the rising popularity of print made dissemination of new cultural ideas possible while rising incomes and liberal attitudes created a generation of men behaving badly.
