Case Studies In Finance Managing For Corporate Value Creation 7th Edition:

Case Studies in Finance Robert F. Bruner, 2007 *Case Studies in Finance* links managerial decisions to capital markets and the expectations of investors At the core of almost all of the cases is a valuation task that requires students to look to financial markets for guidance in resolving the case problem The focus on value helps managers understand the impact of the firm on the world around it These cases also invite students to apply modern information technology to the analysis of managerial decisions **Case Studies in Finance** R. Bruner, 2013 *Business Sustainability* Zabihollah

Rezaee, 2017-09-08 Business sustainability has advanced from greenwashing and branding to being a business imperative Stakeholders including shareholders demand regulators require and companies now need to report their sustainability performance No longer is this a choice for businesses A decade ago fewer than 50 companies released sustainability reports and now more 8 000 global public companies disclose sustainability performance information on some or all five economic governance social ethical and environmental EGSEE dimensions of sustainability performance and this trend is expected to continue Indeed more than 6 000 European public companies would be required to disclose their environmental social governance and diversity information for their 2017 reporting year However the proper determination of sustainability performance accurate and reliable reporting and independent assurance of sustainability information remain major challenges for organizations of all types and sizes Through reading this book you will Identify sustainability strategies to create innovation in new products services energy efficiency environmental facilities and green initiatives Understand the role and responsibilities of all participants in the corporate reporting process including directors officers internal auditors external auditors legal counsel and investors See ways to improve public trust investor confidence business reputation employee satisfaction corporate culture social responsibility and environmental performance Learn all five economic governance social ethical and environmental EGSEE dimensions of sustainability performance separately and their integrated and interactive effects on achieving the goal of creating sustainable value for all stakeholders including shareholders Learn how to adopt best practices in sustainability development and performance and deliver effective integrated sustainability reporting and assurance *Case Studies in Finance* Robert F. Bruner, 2010 *Corporate Finance for Long-Term Value* Dirk Schoenmaker, Willem Schramade, 2023-09-13 This open access textbook offers a guide to corporate finance for modern companies that want to create long term value Drawing on recent literature on sustainable companies it starts by analysing the Sustainable Development Goals as a strategy for the transition to a sustainable economy Next it translates the general concept of sustainability into core corporate finance methods such as net present value company valuation cost of capital capital structure and M A Current corporate finance textbooks are primarily based on the shareholder model designed to maximise financial value This book instead adopts the integrated model which argues that companies have to serve the interests of their current and future stakeholders Accordingly companies move from simply

maximising financial value to optimising integrated value which combines financial social and environmental value Applying this new paradigm of integrated value is the truly innovative feature of this textbook Written for undergraduate and graduate students of Finance Economics and Business Administration this textbook provides a fresh analysis of corporate finance Combining theory empirical data and examples from actual companies it reveals the sustainability challenges for corporate investment and shows how finance can be used to steer funds to sustainable companies and projects and thus accelerate the transition to a sustainable economy

Shareholders, Strategy and Value Creation Wojciech Muras, Katarzyna Szczepańska-Woszczyńska, 2024-02-20 The central task of contemporary strategic management is to look for sources of value and to achieve above average firm performance The effective implementation of a value creation strategy requires a comprehensive approach including the creation of a systemic management structure aimed at increasing company value The concept of value based management involves consciously inspiring undertaking and implementing value oriented actions Value creation takes place at all levels of management and in all organisational units of the company therefore the implementation of all management functions should be assigned to this goal Thus the role of managers is gaining importance especially those who are capital linked to companies who set goals and verify them by means of informed decisions aimed at maximising value in the long term The book presents a multidimensional analysis of shareholders impact on company value creation The authors chose the IT sector as the area of study this sector being one in which modern technologies are essential acquires special significance for the global economy The book features a review of notions and concepts related to the management of company value and methods of measuring it the shareholder s impact on the creation of company value and factors affecting long term value creation an analysis of the places of occurrence power and direction of a shareholder s impact on building the long term capacity of an IT sector company for creating the value thereof as well as the conceptualisation and operationalisation of such impact an analysis of the role of shareholders in IT sector companies a profile of shareholder competence which makes the role of a shareholder unique to the company and fulfils the value creating owner postulate an analysis of the role of hired managers cooperating with the shareholders with an indication of the significance of mutual development and the supplementation of one s own skills The book is dedicated to scientists in the field of strategic management valuebased management and leadership shareholders students of EMBA and MBA programmes practitioners in strategic management and current shareholders of modern technology companies in particular from the IT sector and future investors for all of whom it may offer a valuable outlook on the management principles and practices in the sectors particularly with respect to the long term creation of company value The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 International license
