Seating and Wheeled Mobility Michelle L. Lange,Jean L.

Minkel,2024-06-01 Seating and Wheeled Mobility A Clinical Resource Guide presents clinical assessment considerations when working with a person with a disability who may need wheelchair seating for postural support skin integrity or a wheelchair base to best meet dependent or independent mobility needs Michelle L Lange and Jean Minkel have designed this text to support occupational and physical therapists complex rehabilitation technology suppliers and even third party payers who are interested in wheelchair seating and mobility assessment and applications Seating and Wheeled Mobility provides a wide spectrum of information from foundational information for those practitioners who are new to the field to in depth population specific information for practitioners who perhaps have not worked with a particular population in the past

Information sharing opportunities for demonstration and trial and patience on the part of the clinician working with the person with a disability are all critical precursors to the actual process of making equipment recommendations. Seating and Wheeled Mobility is divided into sections each addressing a different area of clinical practice. The first section is an in depth presentation of the assessment process and the critical understanding of pressure management needed by the clinical team when working with a client population who rely on wheeled mobility. The second section focuses on postural support. Also included is a completely updated method to measure and describe the seated person and related support surfaces needed when recommending a device. The third section lays the foundation for clinical decision making around the assessment for and application of the most appropriate wheeled mobility device. The fourth section provides in depth clinical applications for each category of mobility devices. Also addressed is proper documentation to assist in the funding of these devices. The fifth section provides population specific information regarding the clinical application of position pressure management and functional mobility as it applies to the pediatric geriatric and bariatric populations as well as persons with both degenerative and complex neuromuscular impairments. The last section presents additional considerations when working with persons who are aging with a disability, environmental assessments, transportation and the application of standards. Seating and Wheeled Mobility: A Clinical Resource Guide provides the depth and breadth of the clinical practice of wheelchair seating and mobility to both those who are new to the field as well as seasoned professionals.

Health Care Finance and the Mechanics of Insurance and Reimbursement Michael K. Harrington, 2019-10-01. Health Care Finance and the Mechanics of Insurance and Reimbursement stands apart from other texts on health care finance or health insurance in that it combines financial principles unique to the health care setting with the methods and process for reimbursement including coding, reimbursement strategies, compliance, financial reporting, case mix index and external auditing. It explains the revenue cycle in detail, correlating it with regular management functions and covers reimbursement from the initial point of care through claim submission and reconciliation. Thoroughly updated for its second edition, this text reflects changes to the Affordable Care Act, Managed Care, Organizations, new coding initiatives, new components of the revenue cycle from reimbursement to compliance, updates to regulations surrounding health care fraud and abuse, changes to the Recovery Audit Contractors (RAC) program and more.

Federal Register, 2014-02. **Health Insurance Today - E-Book** Janet I. Beik, 2014-08-06.
