Healthization Susanna Trnka, 2025-09-30 What does it mean to be healthy Is it a measure of physical illness of a mental health condition or of emotional control In twenty first century Aotearoa New Zealand it is all of the above Being healthy in this country requires an investment of extensive work resources and time Because while it encompasses the above categories for many young people in Aotearoa New Zealand health also extends to having strong trusted friendships to feeling that one's emotions are being recognized while recognizing the emotions of others Health for these youth may also consist of creating a daily space for mindfulness while maintaining productivity working up the motivation to work out quantifying and graphing nutrition stats being able to talk openly about one's mental health and maybe even wearing the right lipstick These activities are particularly salient in Aotearoa New Zealand where the past forty years have witnessed a growing emphasis on the importance of patient self responsibility and where the state has invested heavily in health even introducing a wellbeing budget that tracks the economy via wellbeing measures All of these activities add up to a concept and a worldview that anthropologist Susanna Trnka conceptualizes as healthization Through this framework managing one's emotions keeping one's sense of balance and tracking the number of miles run swum or bicycled become overlapping all consuming activities to the point of almost encompassing life itself By analyzing ethnographic interviews with young people Trnka reveals the emotional financial and deeply personal ideas at stake as understandings of health shift in the minds of young people Often at the vanguard of new trends in mental health physical fitness and digital health technologies the youth in Aotearoa New Zealand enact what it means to be well in the twenty first century
