Citizen Canine Our Evolving Relationship With Cats And Dogs:

Citizen Canine David Grimm, 2014-04-08 A pet lover and award winning journalist traces the history of cats and dogs and the changing social attitudes that transformed these furry creatures from pests and hunting tools in the middle ages to their current status as beloved family members 30 000 first printing **War and Peace with the Beasts** Brian

Griffith, 2020-09-01 The animals that one culture likes are often hated in the next and it seems that the animals themselves know it well Basically one culture s animal partner is often another culture s nightmare from hell Naturally I wonder how relations between people and animals got to be so different around the world How did it happen that some cultures treat bats snakes wolves or ravens as embodiments of evil while other people treat the same animals with affection or even reverence Our wars with the animals go way back Beyond the light cast by our prehistoric campfires the eyes glowing in the night seemed to represent a great hostile force As we began to cultivate crops and husband a few favoured animals we generally regarded other creatures as threats to our chosen few Using the logic of war we sought to maximize the populations of certain creatures and the destruction of others In the past that war effort was our great crusade for the advancement of civilization as we knew it The war had a frontier a front line and an ongoing battle on the home front Expanding outward from our various cradles of civilization we progressively tamed the forests and grasslands converting them to monocrop plantations or pastures Then we had to defend our monocrops from encroaching weeds insects and wild animals In this immediately engaging story and fact filled page turner of a book Brian Griffith looks at the range of ways we relate to animals and the stories we tell about them He asks how we choose whether buddyhood fearful respect businesslike predation or genocidal war is the most appropriate response to each species we meet He watches how our treatment of inferior beings affects our treatment of inferior people and traces some of the chain reactions we unleash when we try to weed out species we don t like Without much hope of making animals fit my personal preferences he writes I wonder how good our relations can get

Animals and Ourselves Kathy Merlock Jackson, Kathy Shepherd Stolley, Lisa Lyon Payne, 2020-10-13 The relationship between humans and animals has always been strong symbiotic and complicated Animals real and fictional have been a mainstay in the arts and entertainment figuring prominently in literature film television social media and live performances Increasingly though people are anthropomorphizing animals assigning them humanoid roles tasks and identities At the same time humans such as members of the furry culture or college mascots find pleasure in adopting animal identities and characteristics This book is the first of its kind to explore these growing phenomena across media The contributors to this collection represent various disciplines to include the arts humanities social sciences and healthcare Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving **Lab Dog** Melanie D.G. Kaplan, 2025-10-14 The remarkable Dr Jane Goodall story of a beagle s past and the future of animal research When journalist Melanie D G Kaplan adopted her beagle Hammy all she knew was that he had spent nearly four years in a

research lab Curious to know more about this gentle creature's past as well as the broader world of animal research Kaplan with Hammy in tow embarks on a quest for answers How did Hammy end up in a research facility Why are we still using millions of animals a year in experiments What have we learned from them Is there another way In Lab Dog Kaplan investigates the breeding and use of beagles for biomedical research drug and product testing and education She takes readers on a journey peeking behind laboratory doors and visiting with researchers activists ethicists veterinarians lawmakers and innovators Along the way she finds thoughtful and caring humans on all sides of the debate explores promising developments in nonanimal testing and discovers puzzle pieces from Hammy's past Equal parts journalism and love story Lab Dog offers a nuanced view on our relationship with a species that we both love and exploit and a reason to hope for a better future for all **Animals and Animality in the Babylonian Talmud** Beth A. Berkowitz, 2018-04-19

Animals and Animality in the Babylonian Talmud selects key themes in animal studies animal intelligence morality sexuality suffering danger personhood and explores their development in the Babylonian Talmud Beth A Berkowitz demonstrates that distinctive features of the Talmud the new literary genre the convergence of Jewish Christian and Zoroastrian cultures the Talmud's remove from Temple centered biblical Israel led to unprecedented possibilities within Jewish culture for conceptualizing animals and animality She explores their development in the Babylonian Talmud showing how it is ripe for reading with a critical animal studies perspective When we do we find waiting for us a multi layered surprisingly self aware discourse about animals as well as about the anthropocentrism that infuses human relationships with them For readers of religion Judaism and animal studies her book offers new perspectives on animals from the vantage point of the ancient rabbis

Just Like Family Andrea Laurent-Simpson, 2021-07-13 A first of its kind in depth investigation into how companion animals and their humans have carved out a new type of family the multi species family in which identities like parent child grandparent and sibling transcend species to create new forms of kinship *Reimagining Animal Sheltering: Support Services and Community-Driven Sheltering Methods* Julie Levy, Kevin Horecka, Peter Joseph Wolf, E. Susan Amirian, 2022-10-21 *Mourning Animals* Margo DeMello, 2016-08-01 We live more intimately with nonhuman animals than ever before in history The change in the way we cohabitate with animals can be seen in the way we treat them when they die There is an almost infinite variety of ways to help us cope with the loss of our nonhuman friends from burial cremation and taxidermy to wearing or displaying the remains ashes fur or other parts of our deceased animals in jewelry tattoos or other artwork to counselors who specialize in helping people mourn pets to classes for veterinarians to tips to help the surviving animals who are grieving their animal friends to pet psychics and memorial websites But the reality is that these practices and related beliefs about animal souls or animal afterlife generally only extend with very few exceptions to certain kinds of animals pets Most animals in most cultures are not mourned and the question of an animal afterlife is not contemplated at all Mourning Animals investigates how we mourn animal deaths which animals are grievable and what the implications are for
