International Research on Education for Sustainable Development in Early Childhood John Siraj-Blatchford,Cathy Mogharreban,Eunhye Park,2016-10-14 This book offers a perspective on Education for Sustainable Development in Early Childhood ESDEC that is far removed from the business as usual notion of an extended predominantly environmental educational curriculum for preschools It presents a vision of sustainable development that has relevance to Early Childhood Care and Education ECCE from birth to school it is relevant as much to homes family support and health settings as it is to educational settings and is as much concerned with health and wellbeing as with education The book provides a perspective that is fundamentally embedded in notions of interdependency It places an emphasis upon the importance of recognising the interdependency of peoples within and between nation states the ecological interdependencies of the natural world of humanity and nature and most significantly the interdependency of adults and children These emphases have their origins in the grassroots studies included in the ten chapters representing countries from around the world The book reflects the idea that only global solutions and initiatives are capable of addressing the global challenges of climate change environmental pollution and global threats to ecological systems and biodiversity

Handbook of Theory and Practice of Sustainable Development in Higher Education Walter Leal Filho,Constantina Skanavis,Arminda do Paço,Judy Rogers,Olga Kuznetsova,Paula Castro,2016-11-23 This Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject It offers a unique overview of what universities around the world are doing to implement sustainable development i e via curriculum innovation research activities or practical projects and how their efforts relate to education for sustainable development at the university level The Handbook gathers a wealth of information ideas best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to integrating the topic of sustainable development in university curricula Lastly it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education

Advancing Education for Sustainable Development Barbara Scharfbillig,Gijsbertha van Rooyen,Patricia Ndjavera,Teresa Noichl,2025-05-02 This report details a two year German Namibian Educator Exchange organised by Light for the Children Foundation and Suni e V aimed at cultivating educators intercultural competencies and expertise in Education for Sustainable Development ESD Through workshops training sessions and collaborative projects 14 educators developed learning modules and implemented ESD initiatives impacting children across Germany and Namibia The exchange surpassed expectations fostering significant

personal and professional growth among participants Despite environmental concerns due to travel the program s outcome was deemed significant as it fostered lasting friendships and collaborative spirit among educators from both nations

Children and Sustainable Development Antonio M. Battro,Pierre Léna,Marcelo Sánchez Sorondo,Joachim von Braun,2016-12-08 This book addresses the changes in education practices especially basic education necessitated by the global challenges of climate change and sustainable development and in a context characterized by increasing poverty and inequality migration and refugees Written by a range of international scholars scientists and grassroots practitioners from Africa Latin America Asia India China Malaysia and Europe the individual contributions focus on education policies and child development in various social contexts Case based experiences from both developed and developing countries provide inspiration and shed new light on the fundamental changes needed to adapt existing school systems and teacher training to face the challenges of the future In this regard the need to empower children themselves is emphasized All contributions are based on a Workshop hosted in November 2015 by the Pontifical Academy of Sciences at the Vatican entitled Children and Sustainable Development A Challenge for Education and follow three other significant events on sustainable development in 2015 namely the publication of Laudato Si the Encyclical Letter from Pope Francis the release of the United Nations Sustainable Development Goals and the COP21 Conference in Paris New Education Policy, Sustainable Development and Nation Building Manish K. Verma,2025-06-06 The book provides a comprehensive account of the linkages between education sustainable development and nation building from an interdisciplinary perspective It examines various theories of education and sustainable development and critically explores the origin evolution and contours of education in India through the lens of the current policy debates around the Indian educational system The book also investigates to what extent the New Educational Policy deliberations can be instrumental for the nation s development as well as be an effective tool for devising sustainable solutions including the new challenges posed by climate change An important blueprint of higher education policy and planning the book will be indispensable for teachers students and researchers of education public policy educational studies development studies sustainable development sociology history and political studies It will also be of immense interest to policymakers development practitioners and NGOs **Teaching and Learning Practices That Promote Sustainable Development and Active Citizenship** Saúde, Sandra,Raposo, Maria Albertina,Pereira, Nuno,Rodrigues, Ana Isabel,2020-10-30 The profound changes that we are experiencing at the political environmental economic social and cultural levels of our postmodern society pose immense challenges to education In order to empower students to analyze reflect and take action for a sustainable world the learning and educational process must be experienced in the context of citizenship that is it must be designed planned and implemented having global sustainability as a framework thus developing societal awareness values and principles Teaching and Learning Practices That Promote Sustainable Development and Active Citizenship is an essential research book that provides comprehensive research on education as a

fundamental factor in empowering citizens to understand and act on the multiple risks and challenges to the sustainability of our society and world Highlighting a range of critical learning strategies such as global and critical education development education and transformational education among others this book is ideal for academicians education professionals researchers policymakers and students *Education for Sustainable Development in an Unequal World* Benjamin Knutsson, Linus Bylund, Sofie Hellberg, Jonas Lindberg, 2024-10-08 Education for Sustainable Development ESD is recurrently depicted as an enterprise that unites humanity in a common pursuit of a more just and sustainable world But how is this enterprise pursued on a planet that is enormously unequal Drawing on biopolitical theory and rich empirical data from different contexts around the world this book explores how ESD is unpacked depending on whether people are rich or poor The book demonstrates how ESD is adapted to the lifestyles and living conditions of different populations The implication of this depoliticized sensitivity to local realities the book argues is that inequality becomes accommodated and that different responsibilities are assigned to rich and poor Ultimately the book considers alternatives to this biopolitical divide

Collaborative community partnerships across education settings Mariëtte P. Koen, Luiza O. De Souza, 2025-02-25 This book features chapters by scholars from various education fields specialising in sustainability As the first volume in North West University's Community based Educational Research Series it focuses on transforming education through a participatory approach The authors explore quality education across early childhood primary secondary and higher education by examining collaborative efforts among practitioners parents and teachers This scholarly book provides empirical evidence on how collaborative initiatives can promote sustainable development These initiatives encourage partnerships among community leaders educators learners nongovernmental organisations government and the private sector for lifelong learning and professional development It highlights southern African experiences in collaborative education aligned with the United Nations sustainable development goal of achieving quality education The book demonstrates various research designs and methods applied to educational practice from early childhood to tertiary levels through empirical research and community projects **Language and Sustainable Development in Bangladesh** M. Obaidul Hamid, Shaila

Sultana, Mohammad Moninoor Roshid, 2024-12-11 This book examines relationships between language and sustainable development in the context of Bangladesh Following inclusive and multidisciplinary perspectives these relationships are explored in mainstream education teacher education religious education and indigenous ethnic minority and refugee settings The contexts of development are also diverse which include the public sector international non government organisations domestic work tourism and the environment The book records voices of people from various linguistic social cultural and demographic backgrounds in urban rural and peripheral settings It makes the language question visible in the manifold contexts of development where it has generally remained invisible Giving visibility to language by referring to the Sustainable Development Goals SDGs the chapters embrace language and development in pluralistic ways and underscore

their complex but undeniable relationships The authors come from diverse backgrounds and bring plurality of genres methods insights and implications The volume is intended for students academics researchers policy personnel language practitioners and other readers whose works and interests straddle language development and SDGs It will benefit them by explicating language sustainable development relationships in theoretical as well as practical ways suggesting directives for policies and practices for linguistic and social justice and equity and inclusion
