Schooled and Sorted Thurston Domina, Andrew M. Penner, Emily K. Penner, 2023-06-22 We tend to view education primarily as a way to teach students skills and knowledge that they will draw upon as they move into their adult lives. However, schools do more than educate students; they also place students into categories such as kindergartner, English language learner, or honor roll student. In *Schooled and Sorted*, Thurston Domina, Andrew M. Penner, and Emily K. Penner explore processes of educational categorization in order to explain the complex relationship between education and social inequality and to identify strategies that can help build more just educational systems. Some educational categories have broadly egalitarian consequences. Indeed, Domina, Penner, and Penner argue that when societies enroll young people in school, making them students, they mark them as individuals who are worthy of rights. But other educational categories reinforce powerful social categories including race, gender, and class and ultimately reproduce social and economic inequality in society. Elite colleges, tracked high schools, and elementary school gifted programs provide not only different educational experiences but also create merit and inequality by sorting students into categories that are defined by the students who are excluded. *Schooled and Sorted* highlights that many of the decisions that define educational categories occur in school-based committee meetings and other relatively local settings. The local nature of these decisions provides many opportunities to define educational categories differently and for school communities to bring about change. *Schooled and Sorted* is an illuminating investigation into the ways sorting within schools translates into inequality in the larger world. While some educational categorization may be unavoidable, the authors suggest ways to build a more equitable system and thus a more equitable society.

The Arithmetic Teacher, 1983 *Calibrating Standards-based Assessment Tasks for English as a First Foreign Language. Standard-setting Procedures in Germany* Claudia Harsch, Hans Anand Pant, Olaf Köller, 2010 This report is the second in a multi-part technical report series describing the development, calibration, and validation of standards-based tests for English as a first foreign language at the Institute for Educational Progress, Institut zur Qualitätsentwicklung im Bildungswesen IQB in Berlin, Germany. It details the empirical basis of the calibration of the test item pool and criterion-referenced standard setting procedures. The aim is to make transparent the decisions, methods, and procedures which led to the setting of cut scores in alignment with the National Educational Standards (NES) and the Länderbergreifende Bildungsstandards and the Common European Framework of Reference for Languages (CEF) for English as a first foreign language. Standards were set for the lower secondary school level of Hauptschulabschluss and Mittlerer Bildungsabschluss. This second report describes the process of relating the standards-based proficiency tests to the CEF levels, delineating the purpose of the tests, the aims of the standard setting procedures, the rationale of the chosen procedures, and the use of the Manual for Linking Language Examinations to the CEF. This is followed by a detailed description of the two standard setting methods employed: the Bookmark method and the computer-assisted Criterion Mapping method, developed and implemented by the Berkeley Evaluation and Assessment Research (BEAR) Center, University of California. This volume provides information

on how the standard setting sessions were conducted in collaboration with BEAR Center and describes procedures data gathering and issues and problems which arose during the course of the study The report concludes with a synthesis of the standard setting study s results and discusses the implications of how these results are reported and presented to stakeholders and policy makers *A Task Force Study of the Public School System in the District of Columbia as it Relates to the War on Poverty Conducted by the Task Force on Antipoverty in the District of Columbia...June 1966.Committee Print 89-2* United States.
