Encyclopaedia of the the Divine Masculine God of 10,000 Names Tamara Von Forslun,2021-11-18 The idea of religion has been around since the beginning of mankind when man saw something bigger and grander than themselves They saw an immense building block of creation and re creation in all aspects of nature It was the ancient Shamans that created the first structures that we call religion But these were set upon rules and laws of Nature based on birth life fertility truth faith magic death love and rebirth From this the Divine was born with the images of their surroundings and above these images were the Divine Masculine and the Divine Feminine and these great Ancient Beings spoke to the Shamans the Priests of Old and guided their footsteps who in turn guided their community The reality is that now man has created a myriad of gods in each and every country culture and community and through time these spiritual Shamans have shared their truth with all of mankind upon their many travels and so religion spread and the names of their deities also spread to create the diversity all over the world where instead of a god being known just to a set area and community that he has now been shared and adopted all over the world by those who were searching and believe they found their fit The reality is that God is Deity has always been about bringing likeminded people together without judgement segregation and distrust It is about tolerance acceptance faith trust love peace harmony truth and the bigger picture of Divine Oneness This book features thousands of gods from every land culture and belief system that were needed to bring man into the 21st Century Do we still need thousands of deities That can only be answered by yourself

A Handbook of Gods and Goddesses of the Ancient Near East Douglas Frayne, 2015-07 *Astrology And Numerology Mastery* Luis Taylor, 2021-05-26 55% OFF for Bookstores NOW at 32 95 instead of 39 95 LAST DAYS There is widespread debate over whether numerology is the only factor that will help you improve your life Although a lot of research is being done on the same there is no way to determine whether changing up your life and path number will contribute towards bettering you 100% So you might have to do certain other things as well which will help you remain happy and satisfied with your life for longer Some of that has to do with what you surround yourself with in terms of both people and the environment It is obvious that you will have to deal with unnecessary issues if you surround yourself with negative people Negativity can hamper your growth and also cause you to backtrack in your life If you wish to seek true happiness you should surround yourself with people that will contribute to your life positively It is easier said than done as we cannot really choose who we surround ourselves with and many people exist through their own will So it is best for us to filter out some of these people and surround ourselves with those that promote positive vibes Some people wonder if these negative vibes really do affect them Truth be told it is possible for negativity to alter your life It can take over your thought process and alter your overall thinking This book covers How To Better Understand Your True Purpose Through Your Horoscope The Correlation Of Your Birth Date And Your Fate Incredible Facts About Your Destiny Through Numbers And much more 55% OFF for Bookstores NOW at 32 95 instead of 39 95 LAST DAYS You Will Never Stop Using This Awesome Cookbook Buy it NOW and get addicted to this amazing book The Yantras of Deities and Their Numerological Foundations Fredrick W.
