individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored In addition there is some reflection on the post war implications of German occupation for the musical environment in Europe Music under German Occupation is written for all music lovers students professionals and academics who have particular interests in 20th century music and or the vicissitudes of European cultural life during World War II

Zwarte, 2020-07-23 In this pioneering study Ingrid de Zwart examines the causes and demographic impact of the Dutch
Hunger Winter that occurred in the Netherlands during the final months of German occupation in the Second World War She
offers a comprehensive and multifaceted view of the socio political context in which the famine emerged and considers how
the famine was confronted at different societal levels including the responses by Dutch German and Allied state institutions
affected households and local communities Contrary to highly politicized assumptions she argues that the famine resulted
from a culmination of multiple transportation and distribution difficulties Although Allied relief was postponed for many
crucial months and official rations fell far below subsistence level successful community efforts to fight the famine conditions
emerged throughout the country She also explains why German authorities found reasons to cooperate and allow relief for
the starving Dutch With these explorations The Hunger Winter offers a radically new understanding of the Dutch famine and
provides a valuable insight into the strategies and coping mechanisms of a modern society facing catastrophe **House of
