## **Craigslist Washington:**

An Internet for the People Jessa Lingel, 2022-06-14 How craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e mail to some friends about cool events happening around San Francisco craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn't profit off your data An Internet for the People explores how people use craigslist to buy and sell find work and find love and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site's history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist's legal history describing the company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet Cybercrime Nancy E. Marion, Jason Twede, 2020-10-06 This important reference work is an extensive resource for students who want to investigate the world of cybercrime or for those seeking further knowledge of specific attacks both domestically and internationally Cybercrime is characterized by criminal acts that take place in the borderless digital realm It takes on many forms and its perpetrators and victims are varied From financial theft destruction of systems fraud corporate espionage and ransomware of information to the more personal such as stalking and web cam spying as well as cyberterrorism this work covers the full spectrum of crimes committed via cyberspace This comprehensive encyclopedia covers the most noteworthy attacks while also focusing on the myriad issues that surround cybercrime It includes entries on such topics as the different types of cyberattacks cybercrime techniques specific cybercriminals and cybercrime groups and cybercrime investigations This includes an unbiased examination of controversial topics such as Julian Assange's leak of secret documents to the public and Russian interference in the 2016 US presidential election **Craigslist Confessional** Helena Dea Bala, 2020-07-07 Touching The New York Times For fans of Humans of New York and PostSecret a collection of raw urgent and heartfelt stories shared anonymously Helena Dea Bala was an exhausted and isolated DC lobbyist suffocating under the weight of her student loan debt when she decided to split her lunch with a man who often panhandled near her office They chatted effortlessly as they ate there were no half truths or white lies and no fear of judgment Helena felt connected and unburdened in a way she hadn't in years Inspired she posted an ad on Craigslist promising to listen anonymously and for free to whatever the speaker felt he or she couldn't tell anyone else Emails from people desperate to connect flooded her inbox and she listened Within months Helena quit her job deferred her loans and dove into listening full time The forty first person confessions in this book are vivid

intimate and real they range from devastating traumas to lost loves to reflections on hard choices Some accounts are quotidian like that of one increasingly estranged husband I want to feel that we re not just roommates that we re not just waiting for the kids to grow up so that we can move on Others are deeply disconcerting like that of a sex addict employed by a religious organization and several are heartening like that of a mother who dares to hope that her daughter born with life threatening heart defects will one day walk down the aisle Sometimes you need to have the audacity to believe that it will all be okay that it is okay to have the same kinds of dreams as everyone else In its complex portrayal of the common human experience Craigslist Confessional challenges us to explore the depths of our vulnerability and expand the borders of our empathy **FCC Record** United States.
