

HP Designjet 130 Printer Series

Printers for creative professionals—the affordable HP Designjet 130 multifunction printing systems create fade-resistant, photo-quality images with consistent colors for professional photos, prints and proofs.

Color images that last

- **Fade-resistant, photo-quality images.** Proprietary dye-based HP Viverna inks are carefully engineered to work flawlessly with all parts of the printing systems so you achieve rich, vibrant color and extraordinary photo image quality with exceptional fade-resistance.¹ Graphics designers and professional photographers can rest assured that the images they create will maintain their impact.
- **Rich color depth and minimal dot visibility.** The six-color HP writing system delivers a wide range of colors, deeper blacks, continuous tones and superior gloss uniformity. A 4-picoliter ink-drop size maintains fine detail reproductions, especially in dark areas, and smooth tonal transitions.

Reliable color

- **See reliable, consistent color from print to print.** The HP Designjet 130 Series printers feature automatic closed-loop color calibration to provide consistent color, print to print and printer to printer.
- **Full-color workflow support.** Optimized Macintosh and Windows[®] drivers provide key features for creative professionals, including RGB ICC profiles and full Apple ColorSync support. Optional Adobe[®] PostScript[®] 3[™] software RIP provides robust color management and proofing options for the CMYK workflow. The HP Designjet 130gp, with an easy-to-use HP Colorimeter, display profiling and calibration software plus ICC profiles—all powered by X-Rite technology—helps provide accurate monitor colors and improve monitor-to-printer consistency.

- **Making professional color results simpler.** Every HP Designjet 130 printer ships with a multimedia tutorial to help users get results without a lot of trial and error. HP's free online knowledge center provides illustrated step-by-step instructions specific to your application, computer and workflow. And HP's custom color profiling service provides high-quality ICC media profiles for professionals whose work demands superior color accuracy.

Postcards to posters

- **Ideas big and small—no more cutting and pasting.** The standard tray holds up to 70 sheets as small as a postcard or as big as a poster (18 x 24-inch). Extra-wide front and rear paths allow oversize output up to 24 x 64-inch; automatic roll feed (optional on the 130) supports printing up to 24-inch x 50-feet and allows you to switch between loaded media options without intervention.
- **Media that shows off your ideas.** The HP Designjet 130 Series printers can handle stock in weights up to 80 lb, as well as thick or rigid media (up to .015 inches). Choose from a variety of media finishes, including gloss, satin and matte.

Time to design

- **See results and get client approval fast.** Print up to 4 mpp for 8 size and up to 12 mpp for a 2 x 3-foot image in Normal mode, with fast color stability. Proofs and prints can be reviewed and approved in real time.
- **More time creating.** In-house printing for oversize output eliminates delays and shortens project timelines. Reliable, modular HP ink cartridges and printheads require minimal user intervention and infrequent maintenance—further enhancing cost-effectiveness and efficiency.

¹ Wilhelm Imaging Research, Inc., concluded that prints made with HP 85 ink cartridges and HP Premium Plus Photo papers may be displayed indoors under glass for 82 years before noticeable fading and staining occur. (See www.wilhelm-research.com for details.)
