Christian Ethics In A Technological Age:

Christian Ethics in a Technological Age Brian Brock, 2010-06-28 Through close analysis of the historical and conceptual roots of modern science and technology Brian Brock here develops a theological ethic addressing a wide range of contemporary perplexities about the moral challenges raised by new technology **Themelios, Volume 37, Issue 3** D. A. Carson, 2015-01-27 Themelios is an international evangelical peer reviewed theological journal that expounds and defends the historic Christian faith Themelios is published three times a year online at The Gospel Coalition <http://thegospelcoalition.org/themelios> and in print by Wipf and Stock Its primary audience is theological students and pastors though scholars read it as well Themelios began in 1975 and was operated by RTSF UCCF in the UK and it became a digital journal operated by The Gospel Coalition in 2008 The editorial team draws participants from across the globe as editors essayists and reviewers General Editor D A Carson Trinity Evangelical Divinity School Managing Editor Brian Tabb Bethlehem College and Seminary Consulting Editor Michael J Ovey Oak Hill Theological College Administrator Andrew David Naselli Bethlehem College and Seminary Book Review Editors Jerry Hwang Singapore Bible College Alan Thompson Sydney Missionary Nathan A Finn Southeastern Baptist Theological Seminary Hans Madueme Covenant College Dane Ortlund Crossway Jason Sexton Golden Gate Baptist Seminary Editorial Board Gerald Bray Beeson Divinity School Lee Gatiss Wales Evangelical School of Theology Paul Helseth University of Northwestern St Paul Paul House Beeson Divinity School Ken Magnuson The Southern Baptist Theological Seminary Jonathan Pennington The Southern Baptist Theological Seminary James Robson Wycliffe Hall Mark D Thompson Moore Theological College Paul Williamson Moore Theological College Stephen Witmer Pepperell Christian Fellowship Robert Yarbrough Covenant Seminary **How To Do Christian Ethics** Brian Brock, Nadine Hamilton, Daniel R. Patterson, 2025-05-29 Discover how pressing contemporary moral issues can be approached and discussed in a distinct and coherently theological fashion This book displays a more direct approach that has the distinct advantage of being approachable dramatic and contemporary It introduces the reader to the grammar of Christian moral reasoning and expands upon its intricate inner workings By demonstrating ways in which a Christian believer or congregation can think through specific moral issues the volume serves a church desiring to witness God's love in genuine and contextually truthful ways Each chapter approaches its subject matter by demonstrating how the sources of Christian moral reasoning Scripture and church doctrine can be imaginatively brought to bear on contemporary moral perplexities The form of teaching practices here makes tangible the ways in which the Christian gospel clearly and even penetratingly illumines our contemporary moral contexts **Being Human in a Technological Age** Steven C. van den Heuvel, 2020 What does it mean to be human This age old question has gained new urgency in the light of current technological developments This volume addresses these developments as well as the impact they have on human self understanding particularly from the perspective of Christian theological anthropology This volume consists of fourteen chapters divided into four different parts The first part explores

the challenges that contemporary technology poses with regard to human self understanding In the second part the conceptual assumptions of technological developments themselves are critically questioned The third part offers theological perspectives on technological developments and assumptions The fourth and last part of the book returns to the empirical realm describing the ethical challenges that can be experienced living with complex technology *Bonhoeffer's Christocentric Theology and Fundamental Debates in Environmental Ethics* Steven C. van den Heuvel, 2017-05-04 There is widespread understanding of the close connection between religion and the ecological crisis and that in order to amend this crisis theological resources are needed This monograph seeks to contribute to this endeavor by engaging the theology of Dietrich Bonhoeffer His theology is particularly suitable in this context due to its open ended nature and to the prophetic and radical nature of the questions he was prepared to ask that is why there are many other attempts to contextualize Bonhoeffer's theology in areas that he himself has not directly written about In this monograph Steven van den Heuvel first of all addresses the question of how to translate Bonhoeffer's theology in a methodologically sound way He settles on a modified form of the general method of correlation Then secondly van den Heuvel sets out to describe five major concepts in Bonhoeffer's work bringing these into critical interplay with discussions in environmental ethics and eco theology In making the correlations he thoroughly describes each concept situating it in the historic and intellectual background of Bonhoeffer's time He then transposes these concepts to contemporary environmental ethics describing what contribution Bonhoeffer's theology can make

Singing at the Winepress Tyler Atkinson, 2015-04-23 Atkinson uses Qoheleth's work ethic to provide an analysis of Ecclesiastes utilising the writings of St Bonaventure and Martin Luther Reading Ecclesiastes within a penitential framework Bonaventure offers a version of the contemptus mundi tradition that is rooted in his metaphysics His commentary is ethically significant for the way he detects the vice of curiosity precipitating a perceptual rupture wherein vanity comes to signify sin and guilt Luther on the other hand interprets Solomon as a wise economic political administrator who preaches the good news of God's involvement in quotidian existence This understanding enables Luther to read Ecclesiastes eschatologically with labour being seen as a locus of divine activity One may thus read Solomon's refrain as an invitation to labour with the expectation of receiving God's gifts in the present Finally Atkinson suggests that Ecclesiastes enhances current conversations regarding the theology and ethics of work by working the doctrinal foci of protology and eschatology through Christology The presence of the Word then can be found now only in the preaching and sacraments of the church but also in the labour of the worker

Responsibility and Christian Ethics William Schweiker, 1999-03-11 Schweiker develops a powerful new theory of responsibility articulated in terms of Christian faith *Technē* Gerald Hiestand, Todd A. Wilson, 2022-11-18 Christians have an increasingly complex and often conflicted relationship with technology As Genesis 1 succinctly and profoundly declares God created humanity in his image and as part of that vocation we are called to make something of the world Technology is one of the most important and powerful ways that human beings exercise this dominion But while technology can extend our humanity in powerful and exciting ways many of us feel that it can compromise or fracture our humanity at its core As a result questions quickly emerge What does it mean to be human How does our creation in the image of God affect the way we use design and understand technology Should our general posture toward technology be cautious or optimistic This collection of scholarly and pastoral essays drawn from the 2019 annual theology conference of the Center for Pastoral Theologians offers substantive Christian reflection on a wide range of issues pertinent to a distinctly Christian vision of technology today and in the future **Christian Moral Theology in the Emerging Technoculture** Brent Waters, 2016-05-23 We are living in an emerging technoculture Machines and gadgets not only weave the fabric of daily life but more importantly embody philosophical and religious values which shape the contemporary moral vision a vision that is often at odds with Christian convictions This book critically examines those values and offers a framework for how Christian moral theology should be formed and lived out within the emerging technoculture Brent Waters argues that technology represents the principal cultural background against which contemporary Christian moral life is formed Addressing contemporary ethical and religious issues this book will be of particular interest to students and scholars exploring the ideas of Heidegger Nietzsche Grant Arendt and Borgmann
