Chinese Leadership Chinese Leadership:

Leadership in a Changing China W. Chen,Y. Zhong,2005-01-14 Scholars from China Singapore and the U S use the opportunity of the 16th National Congress of the Chinese Communist Party to explore the issue of leadership change in China and its impact on institution building and foreign policy there The Politics of the Core Leader in China Xuezhong Guo,2019-05-09 This is the first full length scholarly study of the Chinese core leader and his role in the Chinese Communist Party s elite politics Chinese Politics in the Xi Jinping Era Cheng Li,2016-10-18 Chinese politics are at a crossroads as President Xi Jinping amasses personal power and tests the constraints of collective leadership In the years since he became general secretary of the Chinese Communist Party in 2012 Xi Jinping has surprised many people in China and around the world with his bold anti corruption campaign and his aggressive consolidation of power Given these new developments we must rethink how we analyze Chinese politics an urgent task as China now has more influence on the global economy and regional security than at any other time in modern history Chinese Politics in the Xi Jinping Era examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that inner party democracy the concept of collective leadership that emphasizes deal making based on accepted rules and norms may pave the way for greater transformation within China s political system Xi s legacy will largely depend on whether he encourages or obstructs this trend of political institutionalization in the governance of the world s most populous and increasingly pluralistic country Cheng Li also addresses the recruitment and composition of the political elite a central concern in Chinese politics China analysts will benefit from the meticulously detailed biographical information of the 376 members of the 18th Central Committee including tables and charts detailing their family background education occupation career patterns and mentor patron ties Chinese Leadership Barbara Xiaoyu Wang,Harold Chee,2011-09-08 With the accelerating integration of China into the global economy there is a thirst to understand how Chinese managers like to lead and how Chinese employees like to be managed There is no doubt that China can be a difficult and risky market for foreign businesses The authors show managers how to succeed when doing business in China *Elite Dualism and Leadership Selection in China* Xiaowei Zang,2004-03-01 Who are the top political leaders in China What are the major criteria in elite recruitment How is job promotion in high politics determined By studying over one and a half thousand top political Chinese leaders this book seeks to answer these questions and as a result defines how Chinese leadership is stratified Unlike existing research on Chinese leaders *Elite Dualism and Leadership Selection in China* draws on extensive statistical information and data analysis It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party CCP and the government in governance leading to two distinctive career paths in the two political systems respectively Key issues examined include the different criteria the CCP and the government demand the requirements for promotion the effect of university education on the rate of mobility the different affiliations of the two groups the role of cooptation in leadership

selection Many of the elites discussed are still leading figures in China making this book the most up to date and extensive biographical data set in elite studies This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers political commentators statesmen and China watchers

Chinese Leadership Wisdom from the Book of Change Mun Kin-Chok, 2020-03-15 For centuries the Book of Change or the Yijing has been consulted for sage advice at life's turning points It differs from simple prognostication however in that it demands us to cultivate an understanding of the situation the world and most of all ourselves indeed this understanding is essential for leaders of all times MUN Kin Chok a marketing scholar by profession derives a rational approach to organizational leadership from the Book of Change The yin yang concept is illustrated according to contexts and characters of man The sixty four hexagrams and each of their six possible changing lines are analyzed in a clear systematic manner Skeptical of oracle predictions the author combs through different divination methods and utilizes them as tools to calculate risks and stimulate ideas

The Culture of Leadership in Contemporary China Paul Michael Linehan, 2018 The resurgence of Confucianism Daoism and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders The once in a decade transition of China's leadership witnessed the ascendancy of a consensus oriented fifth generation of leaders supporting a central authoritative figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism How will Chinese Communist Party authority ideology and control address the encroachment of Western values that are centered on Roman law Greek philosophy and Christian religion which prioritizes individual freedom and democracy This book examines the role of traditional Chinese values ideology and philosophy as a key determinant in modern China's leadership succession The author asserts that as communist ideology wanes Chinese leaders will turn to their own traditional values found in Confucianism Daoism and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence Since the inception of modern China at the beginning of the 20th century China's leadership transition has evolved from an authoritarian cult like dictatorship to a consensus oriented process In researching this metamorphosis this book offers social political cultural and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership including business organizations and government have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values
