Chinese Woordenboek Online:

The Chinese in Latin America and the Caribbean Walton Look Lai, Chee Beng Tan, 2010 The Chinese migration to the Latin America Caribbean region is an understudied dimension of the Asian American experience There are three distinct periods in the history of this migration the early colonial period pre 19th century when the profitable three century trade connection between Manila and Acapulco led to the first Asian migrations to Mexico and Peru the classic migration period 19th to early twentieth centuries marked by the coolie trade known to Chinese diaspora studies and the renewed immigration of the late 20th century to the present Written by specialists on the Chinese in Latin America and the Caribbean this book tells the story of Asian migration to the Americas and contributes to a more comprehensive understanding of the Chinese in this important part of the world

Chinese Encyclopaedias of New Global Knowledge (1870-1930) Milena Doleželová-Velingerová, Rudolf G Wagner, 2013-08-04 This is a set of pioneering studies on Chinese encyclopaedias of modern knowledge 1870 1930 At a transitional time when modern knowledge was sought after yet few modern schools were available these works were crucial sources of information for an entire generation This volume investigates many of these encyclopaedias which were never reprinted and are hardly known even to specialists for the first time The contributors to this collection all specialize in the period in question and have worked together for a number of years The resulting studies show that these encyclopaedias open a unique window onto the migration and ordering systems of knowledge across cultural and linguistic borders
