Chinas Emerging Middle Class Beyond Economic Transformation Author Li Cheng Nov 201:

China's Emerging Middle Class Cheng Li, 2010-11-15 Decades ago there was no distinct middle class in the People's Republic of China. Any meaningful discussion of China's economy, politics, or society must take into account the rapid emergence and explosive growth of the Chinese middle class. This book details the origins and characteristics of this dramatic change.

China's Emerging Middle Class Cheng Li, 2010-10-01 The rapid emergence and explosive growth of China's middle class have enormous consequences for that nation's domestic future, for the global economy, and for the whole world. In *China's Emerging Middle Class*, noted scholar Cheng Li and a team of experts focus on the sociopolitical ramifications of the birth and growth of the Chinese middle class over the past two decades. The contributors, from diverse disciplines and different regions, examine the development and evolution of China's middle class from a variety of analytical perspectives. What is its educational and occupational makeup? Are its members united by a common identity, by a shared political vision, and worldview? How does the Chinese middle class compare with its counterparts in other countries? The contributors shed light on these and many other issues pertaining to the rapid rise of the middle class in the Middle Kingdom. Contributors: Jie Chen, Old Dominion University; Deborah Davis, Yale University; Bruce J. Dickson, George Washington University; Geoffrey Gertz, Brookings; Han Sang Jin, Seoul National University; Hsin Huang, Michael Hsiao, National Taiwan University; Homi Kharas, Brookings; Li Chunling, Chinese Academy of Social Sciences; Jing Lin, University of Maryland College Park; Sida Liu, University of Wisconsin-Madison; Lu Hanlong, Shanghai Academy of Social Sciences; Joyce Yanyun Man, Peking University; Lincoln Center; Ethan Michelson, Indiana University Bloomington; Qin Chen, Hohai University; Xiaoyan Sun, Beijing Foreign Studies University; Luigi Tomba, Australian National University; Jianying Wang, Yale University; and Zhou Xiaohong, Nanjing University.

Forthcoming Books Rose Arny, 1997 Rising Middle Classes in China Li Chunling, 2012-04-01 This key new book gathers together the latest research results from renowned Chinese scholars who have comprehensively examined the formation of China's middle class. The coverage takes in key background issues: socioeconomic status and sociopolitical functions, the definition, values, social attitudes, income, and consumption characteristics of China's rapidly expanding middle class.

The Rise of the Middle Class in Contemporary China Hainan Su, Hong Wang, Fenglin Chang, 2023-01-01 This book portrays the middle class in contemporary China with plain language and precise professional knowledge in an all-round, broad, and responsible way from the perspectives of income, property, profession, education, consumption, investment, physiological, and behavioral characteristics, history, and development. It gives, in a logical order, the reasons for stimulating the rise of the middle class in contemporary China. It emphatically describes what the middle class is and what the middle class in contemporary China looks like. It also analyzes whether the middle class can rise in China and sheds light on the basic thinking, medium and long-term goals, main measures, and current work priorities for achieving full rise of the middle class in contemporary China. As China becomes the world's largest economy, the new middle class will be the Chinese people.

facing the world as such this book will be of interest to sociologists sinologists political scientists and economists The Making of the Chinese Middle Class Jean-Louis Rocca,2016-11-07 This book analyses the making of the Chinese middle class that started in the 1990s using a constructivist approach With the development of the Chinese economy a new group of middle wage earners appeared Chinese social scientists and state institutions promoted the idea that China needs a middle class to achieve modernization Middle class members are defined and define themselves as good consumers educated people politically engaged but reasonable citizens As such the making of the middle class is the result of three convergent phenomena an attempt to define the middle class a process of civilization and the development of protest movements The making of the Chinese middle class Rocca argues is a way to end the stalemate that modern Chinese society is facing in particular the necessity to democratize without introducing an election system **A ^AMiddle Class Without Democracy** Jie Chen,2013-03-19 What kind of role can the middle class play in potential democratization in such an undemocratic late developing country as China To answer this profound political as well as theoretical question Jie Chen explores attitudinal and behavioral orientation of China s new middle class to democracy based on a probability sample survey and in depth interviews of residents in the Chinese cities of Beijing Chengdu and Xi an While China s middle class is not likely to serve as the harbinger of democracy now its current negative attitudes toward democracy may change in the future Being Middle Class in China Ying Miao,2016-11-25 Many studies of the Chinese middle class focus on defining it and viewing its significance for economic development and its potential for sociopolitical modernisation This book goes beyond such objective approaches and considers middle class people s subjective understanding and diverse experiences of class Based on extensive original research including social surveys and detailed interviews the book explores who the middle class think they are what they think about a wide range of socioeconomic and sociopolitical issues and why they think as they do It examines attitudes towards the welfare state social inequality nationalism relations with foreign countries and opinions on many social controversies thereby portraying middle class people as more than simply luxury consumers and potential agents of democracy The book concludes that a clear class identity and political consciousness have yet to emerge but that middle class attitudes are best characterised as searching for a balance between old and new the traditional and the foreign the principled and the pragmatic **The New Middle Class in China** E. Tsang,2014-05-29 Based on interviews with entrepreneurs professionals and regional party cadres from a range of age groups this book argues that Western class categories do not directly apply to China and that the Chinese new middle class is distinguished more by socio cultural than by economic factors **Middle Class China** Minglu Chen,David S. G. Goodman,2013 A general expectation has developed that China s middle class will generate not only social but also political change This expectation often overlooks the reality that there is no single Chinese middle class with a common identity or will to action This timely volume examines the behaviour and identity of the different elements of China s middle class entrepreneurs managers and professionals in order

to understand their centrality to the wider processes of social and political change in China
