Caribbean Criminal Practice Dana Seetahal, 2001-09-03 This is the first book of its kind in the Commonwealth Caribbean on Criminal Procedure Furthermore it is written by someone who has over twenty years experience in the field as a prosecutor for over a dozen years as a magistrate as a criminologist a criminal justice consultant and finally as a law school lecturer This book fills a lacuna in Commonwealth Caribbean jurisprudence in that there is currently no local or regional text on criminal practice and procedure For too long students and practitioners have had to waste time to wade through English and other text in areas that are not even relevant in order to determine their application to these jurisdictions The book provides a useful reference to clarify what the state of the statutory law is in the Caribbean when compared to similar areas in English law and to discuss the relevant statute and common law in specific areas It is a text useful not only for law school students but criminal justice professionals such as lawyers and police officers as well The content of the book includes both the statute law and common law on criminal practice and procedure in most of the relevant jurisdictions which include Trinidad Tobago Guyana Barbados Jamaica and Grenada among others Where the law is the same or similar in some jurisdictions this is emphasised in the text so as to avoid unnecessary repetition in discussion Attempts will be made to identify specific differences in the laws of different jurisdictions despite their being many commonalities Recent developments in these areas are also discussed and the impact of the statutory changes in some countries is assessed

Child Soldiers as Agents of War and Peace Leonie Steinl, 2017-08-19 This book deals with child soldiers involvement in crimes under international law Child soldiers are often victims of grave human rights abuses and yet in some cases they also participate actively in inflicting violence upon others Nonetheless the international discourse on child soldiers often tends to ignore the latter dimension of children's involvement in armed conflict and instead focuses exclusively on their role as victims While it might seem as though the discourse is therefore beneficial for child soldiers as it protects them from blame and responsibility it is important

to realize that the so called passive victim narrative entails various adverse consequences which can hinder the successful reintegration of child soldiers into their families communities and societies This book aims to address this dilemma First the available options for dealing with child soldiers participation in crimes under international law such as transitional justice and criminal justice and their shortcomings are analyzed in depth Subsequently a new approach is developed towards achieving accountability in a child adequate way which is called restorative transitional justice This book is in the first place aimed at researchers with an interest in child soldiers children and armed conflict as well as international criminal law transitional justice juvenile justice restorative justice children s rights and international human rights law Secondly professionals working on issues of transitional justice juvenile justice international criminal law children s rights and the reintegration of child soldiers will also find the subject matter of great relevance to their practice Dr Leonie Steintal LL M Columbia is a Researcher and Lecturer at the Faculty of Law of the Humboldt University in Berlin

Banking Secrecy and Offshore Financial Centers Mary Alice Young, 2013-02-11 This book brings together the issues surrounding banking secrecy and confiscation of criminal proceeds The book examines the existing legal agreements at the international regional and national levels and their interaction in the substantive areas of confiscation anti money laundering and banking confidentiality laws It looks at how these agreements have been applied in offshore financial centers and demonstrates that despite a number of legally binding UN Conventions as well as global anti money laundering recommendations the implementation of them is often lukewarm by those Parties who have ratified the Convention and adopted obligations because of this the confiscation legislation is incompatible with strict banking confidentiality laws The work draws on the experience of criminologists to offer critical insight into the legislative frameworks designed to deal with banking secrecy and confiscation in offshore financial centers It goes on to offer suggestions for measures that may be taken by major economies to circumvent the lack of cooperation by offshore financial centers as intolerance towards money laundering grows in light of recent political and economic events This book will be of particular interest to students and scholars of Law Finance and Criminology
