Highest resolution and highest brightness for superior image quality

Today's displays are bigger and brighter than ever, but image quality is more than brightness. Audiences expect precise detail and life-like images that capture their attention and immerse them in the content. For displays that require high brightness, superior color reproduction and consistent long-life reliability, Christie® offers you two 4K, 4096 x 2160 resolution choices.

The Christie D4K25 and the Christie D4K35, the brightest 4K resolution projectors available, are designed using Christie's 3-chip DLP® platform which offers the widest color gamut for unrivaled color reproduction. Additionally, both models enable the use of different lamp powers depending on your application needs.

The optional Christie Twist™ 4K offers the ability to warp, blend and color match multiple Christie 4K projectors. You can create large, ultra-high resolution canvases on almost any shape or surface. No need to worry about connecting sources; Christie Twist 4K includes quad DVI inputs which allow for the use of standard 4K sources, enabling native content to be displayed right out of the box.

- 4 times the resolution of 2K
- 3-chip DLP technology for longer life and richer color
- High brightness
- Project on almost any shape or surface using Christie Twist 4K
- Standard 4K DVI sources using Christie Twist 4K
- 3D capabilities
