Consider The Birds A Provocative Guide To Birds Of The Bible:

Consider the Birds Debbie Blue, 2013 Edgy spiritual lessons that challenge the way you understand the birds of the Bible

Consider the Birds Debbie Blue, 2013-08-20 From biblical times to today humans have found meaning and significance in the actions and symbolism of birds We admire their mystery and manners their strength and fragility their beauty and their ugliness and perhaps compare these very characteristics to their own lives in the process Though admired today the birds of Scripture are largely unseen and underappreciated From the well known image of the dove to the birds that gorge on the flesh of the defeated beast in Revelation birds play a dynamic part in Scripture They bring bread to the prophets They are food for the wanderers As sacrifices they are the currency of mercy Highlighting 10 birds throughout Scripture author Debbie Blue explores their significance in both familiar and unfamiliar biblical stories and illustrates how and why they have represented humanity across culture Christian tradition art and contemporary psyche With these usually minor characters at the forefront of human imaginations poignant life lessons illuminate such qualities as desire and gratitude power and vulnerability insignificance and importance even as readers gain a better understanding that God's mysterious grace is sometimes most evident in His simplest of creatures

Banned Birds Peter Altmann, 2019-12-03 In this study Peter Altmann addresses the difficult question of why the Hebrew Bible prohibits consumption of certain birds by placing these birds within the overall appearance of birds in the archaeology texts and iconography of the Ancient Near East and within the Bible itself

Materializing the Bible James S. Bielo, 2021-08-12 What happens when the written words of biblical scripture are transformed into experiential choreographed environments To answer this question anthropologist James Bielo explores a diverse range of practices and places that materialize the Bible including gardens theme parks shrines museums memorials exhibitions theatrical productions and other forms of replication Integrating ethnographic archival and mass media data case studies focus primarily on U S Christianity from the late 19th century to the present Composed as 20 short chapters that may be read in any order the book is divided into three sections Section I Variations on Replication analyzes examples that recontextualize elements from the actual or imagined biblical past Section II The Power of Nature turns to the natural world associated with Christian scripture and how it is mobilized as a privileged media Section III Choreographing Experience examines lived interactions with the affordances of materializing the Bible Bielo argues that materializing the Bible works as an authorizing practice to intensify intimacies with scripture and circulate potent ideologies Performed through the sensory experience of bodies physical technologies and infrastructures of place Bielo illustrates how this phenomenon is always ultimately about expressions of power

Birds and Cages Ida Tomshinsky, 2019-03-16 We are not afraid to say that we are fascinated by birds Flying birds always provoke human admiration There is this unexplained mysterious feeling that surrounds us when watching birds on the forest trees in our backyard at the ocean sea or lake Birds are an infinite treasure of inspiration for humans waking us up in the morning with beautiful birdsongs Their little brain is of

a size of an unshelled walnut and is associated with intelligent behavior and the same capabilities of humans and apes mental tasks When you think about all the animals in the world you quickly realize that birds are in fact among some of the most intelligent creatures we have on earth Although there are more than ten thousand bird species worldwide only a handful of them have made the list for the extremely talented and incredibly intelligent So who are these super intelligent feathered friends It is difficult to pick one Perhaps kea ravens and crows are equally smart while macaws cockatoo and jays are on the top of any list too Who knew that an African gray is capable of working out the location of hidden food by using the kind of deduction and elimination skills previously seen only in humans and apes And as you probably have heard they are exceptional talkers Today we all know that it is bad to imprison birds in cages but it was not always the case throughout the history According to Stephen King Some birds are not meant to be caged that s all Their feathers are too bright their songs too sweet and wild Due to beautiful poetry and cultural expressions the flying bird became a symbol of freedom and independence There are cases of historic acknowledgment of birdcages especially in the Victorian era People were listening to birdsongs in cages as it was their radio entertainment outlet During wartimes birds demonstrated their unique abilities in courageous heroic efforts to help humans in transferring information through the battlefields The birds and birdcages both have a longtime history Our love for the amazing earth creatures makes us stand out for their protection and safety to enjoy our shared inhabitants on the planet and as for the birdcages people find them pretty appealing in various ways of the aesthetic repurposing

Magnificat Debbie Blue, 2021-11-16 WOMEN THAT BREAK THE RULE RULES AND MAKE THEMSELVES VISIBLE THOUGHT AND ACTION PROVOKING INTIMATE FURIOUS AND LOVING DEBBIE BLUE GIVES VOICE TO THE WOMEN OF THE BIBLE AS TOGETHER THEY TURN THE TABLE OF PATRIARCHY The sayings of the wise are like goads warned a preacher of old words that are not as restful as one might expect The wise speak and are goaded into action Or perhaps the community works and the wise merely capture its hidden wisdom words and deeds that can be more disruptive at times than polite Debbie Blue attempts to tap into this spirit as she develops her preaching ministry as a founding pastor of House of Mercy in St Paul Minnesota Debbie took a step further along the line of the preacher of old She collected her sermons and as a result you have this book in your hand Its contents are piercing as nails sometimes Goads that are unsettling more than complacent when it comes to questioning patriarchy This is a collection of fifteen sermons that revolve around women The women in the Bible break a lot of rules resist empire disobey the cultural norms cause good trouble and sometimes not such good trouble They are fully human They help us glimpse the possibility of transformation not always but often I think we are at a time and place in the life of the world where we need to hear their stories THERE IS A STORY BEHIND THE REIGNING PATRIARCHAL CHRISTIAN NARRATIVE IT IS THE STORY OF WOMEN THEIR GOD THEIR RESISTANCE True to her style pastor preacher and author Debbie Blue in **Magnificat** A God Who Never Stopped Considering Women spurs us on to that possibility of transformation She and the women in the stories with their resourcefulness dancing

When God Was a Bird Mark I. Wallace, 2018-11-20 2019 NAUTILUS GOLD WINNER In a time of rapid climate change and species extinction what role have the world's religions played in ameliorating or causing the crisis we now face Religion in general and Christianity in particular appears to bear a disproportionate burden for creating humankind's exploitative attitudes toward nature through unearthly theologies that divorce human beings and their spiritual yearnings from their natural origins In this regard Christianity has become an otherworldly religion that views the natural world as fallen as empty of signs of God's presence And yet buried deep within the Christian tradition are startling portrayals of God as the beaked and feathered Holy Spirit the animal God as it were of historic Christian witness Through biblical readings historical theology continental philosophy and personal stories of sacred nature this book recovers the model of God in Christianity as a creaturely avian being who signals the presence of spirit in everything human and more than human alike Mark Wallace's recovery of the bird God of the Bible signals a deep grounding of faith in the natural world The moral implications of nature based Christianity are profound All life is deserving of humans care and protection insofar as the world is envisioned as alive with sacred animals plants and landscapes From the perspective of Christian animism the Earth is the holy place that God made and that humankind is enjoined to watch over and cherish in like manner Saving the environment then is not a political issue on the left or the right of the ideological spectrum but rather an innermost passion shared by all people of faith and good will in a world damaged by anthropogenic warming massive species extinction and the loss of arable land potable water and breathable air To Wallace this passion is inviolable and flows directly from the heart of Christian teaching that God is a carnal fleshy reality who is promiscuously incarnated within all things making the whole world a sacred embodiment of God's presence and worthy of our affectionate concern This beautifully and accessibly written book shows that Christian animism is not a strange oxymoron but Christianity's natural habitat Challenging traditional Christianity's self definition as an otherworldly religion Wallace paves the way for a new Earth loving spirituality grounded in the ancient image of an animal God

The Great Conversation Belden C. Lane, 2019 In the face of climate change species loss and vast environmental destruction Belden C Lane's spiritually centered environmentalism suggests that we must look to teachers in nature to understand how to save ourselves Pairing anecdotes of personal encounters with nature with the teachings of spiritual leaders from a range of religious traditions this book invites us to participate once more in the great conversation among all creatures and the earth itself

[Feathered Entanglements](#) Scott E. Simon, Frédéric Laugrand, 2024-10-15 As they migrated across great distances ancient humans may have used birdsong and bird sightings to find food and water in unseen territory Today attending to birds helps scientists track not only avian migration but also environmental change Birds remain our sentinels Feathered Entanglements offers a rich tapestry of human bird relations across the Indo Pacific In this era of uncontrolled industrialization we have grown increasingly disconnected from the natural world The ways in which birds

feature in the daily life symbolic systems and material culture of humans from pigeon keeping on the rooftops of Amman to the rituals of Indigenous peoples in Taiwan can teach us how to live with other species amid the challenges of the Anthropocene In a time of intensifying ecological crisis we need more than ever to protect and appreciate non human lives

Feathered Entanglements embraces the connection between humans birds and our shared world **Encountering Earth**

Trevor George Hunsberger Bechtel, Matt Eaton, Tim Harvie, 2018-05-14 One day Matthew Eaton was walking through an impromptu animal shelter display at his local pet store when suddenly an eight month old kitten dug his claws into Eaton s flesh Eaton recognized that the eyes of this cat and the curve of his claw compelled a response analogous to those found in the writings of Buber Levinas and Derrida And not just Eaton but a whole community of theologians have found themselves in an encounter with particular places and animals that demands rich theological reflection Eaton enlisted fellow editors Harvie and Bechtel to collect the essays in this volume in which theologians listen to horses rats snakes cats dogs and the earth itself who become new theological voices demanding a response In this volume the voice of the more than human world is heard as making theology possible These essays suggest that what we say theologically represents not simply ideas of our own making subsequently superimposed onto the natural world through our own discovery but rather flow from an expressive Earth
