The Confidence Effect, 2018 Signal, 2016 **Best Practices and Programmatic Approaches for Mentoring Educational Leaders** Wilkerson, Amanda, Samuels, Shalander, 2023-02-17 In today's educational world supporting graduate students from all backgrounds and ensuring they receive the best education possible is vital. Due to this, academic mentors and graduate student mentoring programs must provide equitable support within learning environments as a construct of social justice for supporting the success of advanced underrepresented student learners. *Best Practices and Programmatic Approaches for Mentoring Educational Leaders* discusses empowered perspectives about conceptual and best practice approaches regarding mentoring and supporting doctoral students' success and considers the area of diversity and inclusion in higher education related to best practices in programming. Covering topics such as educational leadership, higher education mentoring networks and communities, this reference work is ideal for industry professionals, administrators, policymakers, researchers, academicians, scholars, practitioners, instructors, and students.

Breakthrough Saundra Stroepe, 2019-04-04 It is an important time to celebrate the advancement of women. We have made visible progress in the last few decades. The number of women entrepreneurs, business owners, and leaders in corporate leadership roles is growing. However, there are still many challenges women face that are different from their male counterparts. Women sometimes have beliefs or career myths that may interfere with their personal career satisfaction and success. The book is based on a global survey of over 180 women and interviews with a dozen influential women in leadership and professional roles conducted from January to March 2018. The women validated 21 career myths and provided advice and tips for helping women overcome them. While women seem to agree that these myths exist, until now there have been few development resources dedicated to overcoming them.

The Confidence Effect Grace Killelea, 2016 Every day talented, hardworking women are passed over for promotions. While it's easy to blame a corporate culture that favors men, seasoned executive Grace Killelea identifies another culprit: a surprising disparity in confidence. Men are prone to overestimate their abilities, while women too often sell themselves short. *The Confidence Effect* helps women speak out, take risks, and assume leadership positions with assurance. The book moves beyond research and statistics to focus on what's really important: how women can become more confident, one step at a time. Practical strategies show how to turn job competency into the kind of authentic confidence that gets noticed. Women learn to practice the Four Rs of Success: relationships, reputation, results, and resilience. Dipping in for tips and tools on how to build circles of influence, seize opportunities they normally avoid, leverage and promote their skills, cultivate executive presence, use data compellingly, bounce back from setbacks, and more. With this powerful new book, women everywhere will find the confidence they need to step off the sidelines onto the playing field and claim the success they deserve.

Grace Meets Grit Daina Middleton, 2016-10-14 There is no mistaking that inequality in the workplace is still prevalent in the form of salary inequity and unequal representation in leadership and board positions. Too often, conversations

about inequality can lead to men and women believing they are alike Women and men are not the same biologically or psychologically and these differences lead to significant dissimilarities in how each approaches leadership situations Grace Meets Grit navigates the previously unexplored subject of gender differences in the workplace specifically applied to critical leadership behaviors Leadership behaviors are what make us all successful in the workplace They are how we are evaluated against our peers and what we use to solve problems when working in teams We also know that the most effective organizations work diligently to optimize these leadership behaviors Through stories of extraordinary courageous women Grace Meets Grit shows how to compensate for your innate style by dialing up leadership qualities you may not naturally possess Middleton empowers women in particular to embrace their innate qualities and anticipate and apply behaviors expected of their male counterparts to help level the playing field The end result is fewer misunderstandings in the workplace and higher performance from both individual leaders and teams
