Whose Language? Jacob Mey,1985-01-01 For the colonized person objectivity is always directed against him Frantz Fanon Colonized persons do not live on what we call or used to call the colonies alone In general objective reality or the facts of life are very different depending on the kind of life you can afford This goes for language as well and it explains both the title of this book and gives it its raison d'être It deals with power in language and asks Who is really in command when we use our language And why does it make sense to talk about a language of power or lack of it The powerful are the colonizers the colonized are the powerless in language as in geopolitics Colonizers and colonized alike however are subject to the social and economic conditions prevailing in society and therefore a thorough analysis of these conditions is a must for any socially oriented theory of language use
