Ciudad Colonial Del Nuevo Mundo:

La ciudad colonial del Nuevo Mundo, 2001 *From the City as a Project to the City Project* Fernando Carrión Mena, Sebastián Rodríguez Álvarez, 2025-09-26 The city has historically been conceived as a project with a sense of duty to be it is the prefiguration of a reality that emerges from the negation of the pre existing city The city anticipates a desired future from an ideal perspective that tends to overcome the existing structural or particular challenges of the present It can be argued that this proposition represents the historical trajectory of urban thought on a planetary scale Therefore the prospective dimension of the city constituted a central dynamic in urban theory throughout history leading to the emergence of planning as a key approach The history of the city as a project is the core of the first volume in this two part contribution It presents an overview of diverse city projects that have been pursued throughout history providing a framework for exploring new perspectives of urban development The cities profiled and analyzed here reflect a living catalog of initiatives that can inform promising directions More than a compilation this volume compares and critically assesses these historical projects to provide a grounding for the contemporary advances presented in the second volume *How the Spanish Empire Was Built*

Felipe Fernández-Armesto, Manuel Lucena Giraldo, 2024-05-06 A richly researched account of the clever industrious and deeply practical men who followed in the footsteps often literally of Columbus Cortés Pizarro Núñez de Balboa and others Wall Street Journal The untold story of the engineering behind the empire showing how imperial Spain built upon existing infrastructure and hierarchies of the Inca Aztec and more to further its growth Sixteenth century Spain was small poor disunited and sparsely populated Yet the Spaniards and their allies built the largest empire the world had ever seen How did they achieve this Felipe Fernández Armesto and Manuel Lucena Giraldo argue that Spain's engineers were critical to this venture The Spanish invested in infrastructure to the advantage of local power brokers enhancing the abilities of incumbent elites to grow wealthy on trade and widening the arc of Spanish influence Bringing to life stories of engineers prospectors soldiers and priests the authors paint a vivid portrait of Spanish America in the age of conquest This is a dazzling new history of the Spanish Empire and a new understanding of empire itself as a venture marked as much by collaboration as oppression

Spatial Theories for the Americas Fernando Luiz Lara, 2024-11-19 To study the built environment of the Americas is to wrestle with an inherent contradiction While the disciplines of architecture urban design landscape and planning share the fundamental belief that space and place matter the overwhelming majority of canonical knowledge and the vernacular used to describe these disciplines comes from another very different continent With this book Fernando Luiz Lara discusses several theories of space drawing on cartography geography anthropology and mostly architecture and proposes counterweights to five centuries of Eurocentrism The first part of Spatial Theories for the Americas offers a critique of Eurocentrism in the discipline of architecture problematizing its theoretical foundation in relation to the inseparability of modernization and colonization The second part makes explicit the insufficiencies of a hegemonic Western tradition at the

core of spatial theories by discussing a long list of authors who have thought about the Americas To overcome centuries of Eurocentrism Lara concludes will require a tremendous effort but nonetheless we have the responsibility of looking at the built environment of the Americas through our own lenses Spatial Theories for the Americas proposes a fundamental step in that direction **New World Literacy** Carlos Alberto González Sánchez, 2011-04-07 This book on the role of written and iconographic communication in the Atlantic World combines a broad outlook geographically and chronologically with the precise treatment of specific evidence extracted from the sources The author argues that diatribes against chivalric fiction and the Index of Prohibited Books did not prevent proscribed literature from circulating freely on both sides of the Atlantic On the contrary he notes such prohibitions may have increased the lure of certain books A description of the process of registering and inspecting ships in Seville and upon reaching their destinations highlights opportunities for contraband smuggling fraud and the corruption of officials entrusted with regulating the trade Within the prominent spiritual genre the author documents a shift from Erasmian to Tridentine thinking The registers analyzed also suggest the growing popularity of literary works by Cervantes Mateo Alemán and Lope de Vega It opens a fascinating window onto the book trade in the Americas Different forms of participation in this culture included the use of books as fetishes and the possession of printed devotional images The analysis of books as well as printed images supports larger contentions about their role as agents of evangelization and westernization This book certainly opens up new worlds on the impact of books and images in the Atlantic World El cacao Guayaquil en nueva España, 1774-1812 (política imperial, mercado y consumo) Manuel Miño

Grijalva, 2014-01-30 Esta obra analiza la presencia del cacao originado en las costas del Guayas Ecuador conocido en el mercado mundial como cacao guayaquil El estudio se centra en el intercambio comercial con Nueva España y los vericuetos de la prohibición comercial entre colonias Muestra por una parte el carácter imperialista de la corona que gobierna sus posesiones del Nuevo Mundo como colonias más que como reinos en el aspecto económico aunque una de las primeras cosas que el tráfico del cacao puso en evidencia es que la prohibición de la Corona del siglo XVII no detuvo la exportación de cacao aunque sí frenó el crecimiento de Guayaquil Por otra parte la investigación establece el tráfico naviero los montos de las cargas de cacao que arribaron a Acapulco y las manifestaciones de los precios en el mercado de la ciudad de México y trata de demostrar que la oferta creciente de cacao guayaquil ayudó a mantener los precios estables en un contexto general de crecimiento de los precios en la segunda parte del siglo XVIII **Jews and Blacks in the Early Modern World** Jonathan Schorsch, 2004-04-12 This book offers the first in depth treatment of Jewish images of and behavior toward Blacks during the period of peak Jewish involvement in Atlantic slave holding De Tomebamba a Cuenca Ross William Jamieson, 2003

Una nueva mirada a las independencias Scarlett O'Phelan Godoy, 2021-08-01 El libro tiene el objetivo de dar una nueva mirada a las independencias y con ello trascender la tendencia de reducir los estudios sobre este tema al proceso peruano La primera parte del libro coordinada por Carlos Aguirre versa sobre el impacto de la Revolución de Haití en Hispanoamérica un

tema poco abordado para el caso de los Andes La segunda parte coordinada por Juan Carlos Estenssoro est dedicada a la iconografía arte y cultura en la independencia La tercera parte coordinada por Gabriel Ramón se ocupa de la arquitectura y la vida urbana durante dicho periodo La cuarta y ltima parte coordinada por Scarlett O Phelan Godoy est dedicada al destierro en la independencia
