Clinical Neurotherapy Chapter Fifteen Vision Therapy As A Complementary Procedure During Neurotherapy:

Clinical Neurotherapy John K. Nash, 2013-10-18 This chapter provides a brief introduction to neurofeedback as practiced by the author followed by a rather detailed description of vision therapy which he has found to be an excellent supplement especially with many cases of attention deficit hyperactivity disorder and traumatic brain injury The chapter provides basic information about the problems created by impaired control of binocular eye movement and the use of orthoptic vision therapy to correct functional visual problems such as poor convergence and divergence Poor binocular control creates problems such as headaches slowed and inaccurate reading and poor depth perception Poor depth perception in turn leads to poor sports performance and a self perception of being clumsy Combining challenging and activating tasks including active listening and vision therapy methods with neurofeedback during a course of neurotherapy is also addressed as is how and when to refer to a developmental behavioral vision specialist orthoptist

Clinical Neurotherapy David S. Cantor, James R. Evans, 2013-10-18 Neurotherapy sometimes called EEG biofeedback and or neurobiofeedback involves techniques designed to manipulate brain waves through non invasive means and are used as treatment for a variety of psychological and medical disorders The disorders covered include ADHD mood regulation addiction pain sleep disorders and traumatic brain injury This book introduces specific techniques related equipment and necessary training for the clinical practitioner Sections focus on treatment for specific disorders and which individual techniques can be used to treat the same disorder and examples of application and the evidence base for use are described An introduction for clinical practitioners and psychologists investigating neurotherapy techniques and application Includes coverage of common disorders such as ADHD mood regulation addiction pain sleep disorders and traumatic brain injury Includes evidence base for use Includes training methods for new users
