Samir Husni's Guide to New Magazines ,1990 The Body of Myth J. Nigro Sansonese,1994 Long ago the
 ancestors of the Greeks Romans and Hindus were one people living on the Eurasian steppes At the core of their religion was
 the shamanic trance a natural state but one in which consciousness achieves a profound level of inner awareness Over the
 course of millennia the Indo Europeans divided and migrated into Europe and the Indian subcontinent The knowledge of
 shamanic trance retreated from everyday awareness and was carried on in the form of myths and distilled into spiritual
 practices most notably in the Indian tradition of yoga J Nigro Sansonese compares the myths of Greece as well as those of the
 Judeo Christian tradition with the yogic practices of India and concludes that myths are esoteric descriptions of what occurs
 within the human body especially the human nervous system during trance In this light the myths provide a detailed map of
 the shamanic state of consciousness that is our natural heritage This book carries on from the works of Carl Jung and Joseph
 Campbell to show how the portrayal of consciousness embodied in myth can be extended to a reappraisal of the laws of
 physics before they are descriptions of the world these laws like myths are descriptions of the human nervous system **A**
