World Order and Local Disorder Linda B. Miller, 2015-12-08 This book considers the varied roles played by the United Nations in cases where threats to peace are created by civil strife in modernizing societies These struggles for internal supremacy are viewed by the superpowers and other states as parts of larger racial anti colonial or ideological contests Through a careful analysis of selected cases Algeria Angola the Congo Cyprus the Dominican Republic Greece Guatemala Hungary Lebanon Laos Yemen and Vietnam the author clarifies the legal and political factors limiting the United Nations effectiveness in containing violence and promoting peaceful change Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Russian Foreign Policy Debates and the Conflicts in Georgia (1991-2008) Cécile Druey, 2024-04-15 Russian Foreign Policy Debates and the Conflicts in Georgia 1991 2008 Between Multilateralism and Unilateralism discusses the conflicts and crises in the former Soviet space from a historical perspective and reconstructs the often contradictory approaches of public actors in Russia on how to deal with them Notably it inquires whether the actions suggested follow a multilateral approach one based on pluralist decisions and international law or on the opposite a unilateral one concentrating

exclusively on Russia's own national interests to the detriment of commonly agreed on international rules. The case of Georgia from the disintegration of the Soviet Union in 1991 to the Five Day War in August 2008 serves as an example illustrating Russian approaches to conflict management. Richly illustrated with empirical data, the three parts of this book show how foreign and security policy debates in Moscow and their outcomes on the ground evolved from a chaotic policy of ad hoc interventions in the 1990s to a coherent geopolitically informed strategy of coercion and persuasion in the 2000s. About a decade and a half before the large scale invasion of Ukraine, Moscow had already shown its willingness to go quite far in defending its interests in the former Soviet space.

The International Politics of Eurasia: v. 4: The Making of Foreign Policy in Russia and the New States of Eurasia S. Frederick Starr, Karen Dawisha, 2024-11-01. This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states. Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states. This volume looks at the making of foreign policy in Russia and the new states of Eurasia.
