Instability and Conflict in the Middle East N. Abi-Aad, M. Grenon, 1997-04-11 The present book is about instability and conflict in the Middle East at a time when many still believe that peace between the Arabs and Israel will bring an end to all problems in the region Maybe that is due to the fact that the Arab Israeli conflict has dominated much of the discussions about the area over the past fifty years Insufficient attention has therefore been devoted to other important issues that may not be quite as eye catching or newsworthy This is exactly what the book is aiming to offer

Routledge Handbook of the Global History of Warfare Kaushik Roy, Michael W. Charney, 2024-01-23 This handbook examines key aspects of the development of the global history of warfare and the changing patterns of warfare over time Although scholarship has long eschewed a chronological narrative of the evolution of warfare that privileges the Western

experience global histories of warfare have had difficulty avoiding an overemphasis on the West The present volume is a collection of themes rather than a history per se it provides important perspectives on the emergence of warfare as a global historical experience from the ancient past to the present day Drawing together numerous experts it tells a broader more inclusive story of the global human experience with wars and warfare The 35 chapters are organised in eight thematic parts Part I Origins of Warfare Part II Politics and Armed Forces in the Pre Modern Era Part III Steppe Nomads of Eurasia Part IV Naval Warfare and Piracy in the Pre Industrial World Part V The Impact of Gunpowder Part VI Transition from Industrial to Total War Part VII Wars of Decolonisation and Cold War Part VIII Postmodern New Wars These Parts offer an overview of the global experience of warfare to help readers understand how the wars and the militaries we see today have been shaped by historical developments across the globe This handbook will be of great interest to students of military history naval history strategic studies and world history in general

Conflict and War in the Middle East Bassam Tibi, 1998-09-28 Few studies of Middle East wars go beyond a narrative of events and most tend to impose on this subject the rigid scheme of superpower competition The Gulf War of 1991 however challenges this view of the Middle East as an extension of the global conflict The failure of the accord of both superpowers to avoid war even once regional superpower competition in the Middle East had ceased must give rise to the question Do regional conflicts have their own dynamic Working from this assumption the book examines local regional constraints of Middle East conflict and how through escalation and the involvement of extra regional powers such conflicts acquire an international dimension The theory of a regional subsystem is employed as a framework for conceptualising this interplay between regional and international factors in Tibi's examination of the Middle East wars in the period 1967-91 Tibi also provides an outlook into the future of conflict in the Middle East in the aftermath of the most recent Gulf War
