Portraits of the City Katrien Lichtert, Jan Dumolyn, Maximiliaan P. J. Martens, 2014 During the last decades representations of medieval and early modern urban space have witnessed an increasing popularity as objects of study within the historical disciplines Scholars with

different backgrounds investigate urban landscapes in various forms and using a wide range of media. In general, such portraits of the city cover different types of visual and written documents. The twelve essays gathered in this book all cover specific types of such portraits ranging from historiographical texts and archival records over drawings, prints, and paintings to maps and real urban architectural settings. Moreover, the interdisciplinary scope results in an ample compilation of various innovative methodologies currently applied in the fields of study and disciplines addressed in the book. *Portraits of the City* provides a representative overview of the current state of knowledge and is in this way a relevant contribution to the international debate on representations of the city.

Monthly Bulletin of Books Added to the Public Library of the City of Boston Boston Public Library, 1904 *ARC/INFO Maps*, 1991 *Gateway to the Heavenly City* Sylvia Schein, 2017-03-02

Gateway to the Heavenly City presents a penetrating analysis of the attitudes of Latin Christendom towards Jerusalem in the period from the First Crusade to the Muslim capture of the city in 1187. Sylvia Schein starts by exploring the changes in the Western image of Jerusalem first as the goal of the crusade, then after its conquest. She examines the theories used to justify the conquest and rule of the Holy City and the attitudes of the papacy towards this new rival centre of sanctity. Subsequent chapters describe the new character of Jerusalem's sanctity as the city of the Old and New Testaments as the earthly gateway to the heavenly city and in apocalyptic terms as the centre of the world and the place where the events of the end of the world would unroll. The reaction to the fall of crusader Jerusalem in 1187 is the subject of the final chapter. Based on a detailed examination of the source materials from poetry and song to chronicles and charters, this book paints a clear picture of the place of the Earthly and the Heavenly Jerusalem in Latin Christendom.

The Routledge Handbook of Translation and the City Tong King Lee, 2021-06-27. The Routledge Handbook of Translation and the City is the first multifaceted and cross-disciplinary overview of how cities can be read through the lens of translation and how translation studies can be enriched by an understanding of the complex dynamics of the city. Divided into four sections, the chapters are authored by leading scholars in translation studies, sociolinguistics, and literary and cultural criticism. They cover contexts from Brussels to Singapore and Melbourne to Cairo and topics from translation as resistance to translanguaging and urban design. This volume explores the role of translation at critical junctures of a city's historical transformation as well as in the mundane intercultural moments of urban life and uncovers the trope of the translational city in writing. This Handbook is critical reading for researchers, scholars, and advanced students in translation studies, linguistics, and urban studies.
