that does not even begin to convey what the Berger experience is What makes these bestselling textbooks so distinctive is the unmistakable presence of KATHLEEN STASSEN BERGER on every page in writing that continually draws on the author's teaching and family life to demonstrate a remarkable understanding not just of the field but of students' questions, their concerns and their lives The distinctive definitive BERGER touch is evident throughout her new textbook *Invitation to the Life Span* This brief original 15 chapter textbook was created from page 1 to address the challenges teachers and students face when covering the entire life span in a semester or even a quarter The hallmark Berger qualities are all here: the relatable presentation of research, the inclusive approach to world cultures, the study help that builds critical thinking and observational skills, the outstanding media and supplements, and all held together with Berger's skill in bringing students and the science together

Parents with Mental and/or Substance Use Disorders and their Children, volume III Anja Wittkowski, Joanne Nicholson, Jean Lillian Paul, Geneviève Piché, 2025-07-30 Families living with parental mental and/or substance use disorders continue to face considerable biopsychosocial challenges with complex pathways to mitigating risk, enhancing resilience and supporting recovery An ecological life span approach to improving outcomes for all family members: infants, children, adolescents and adults who are parents requires careful consideration of sociocultural conditions, life stages and developmental ages alongside family focused needs, goals and plans In addition, community contexts, policy developments and practice innovation play roles in contributing to the wellbeing and functioning of all family members The risk conveyed to all family members by parental mental and/or substance use disorders is great Fortunately, the opportunities to intervene are plentiful and varied However, in many cases, interventions are unspecified, untested and not brought to scale in regional, state or national initiatives We may have the requisite knowledge to inform policy and practice but this evidence may not be applied to effect innovation or change, suggesting the need for widespread knowledge translation and dissemination efforts with significant potential to improve public mental health
